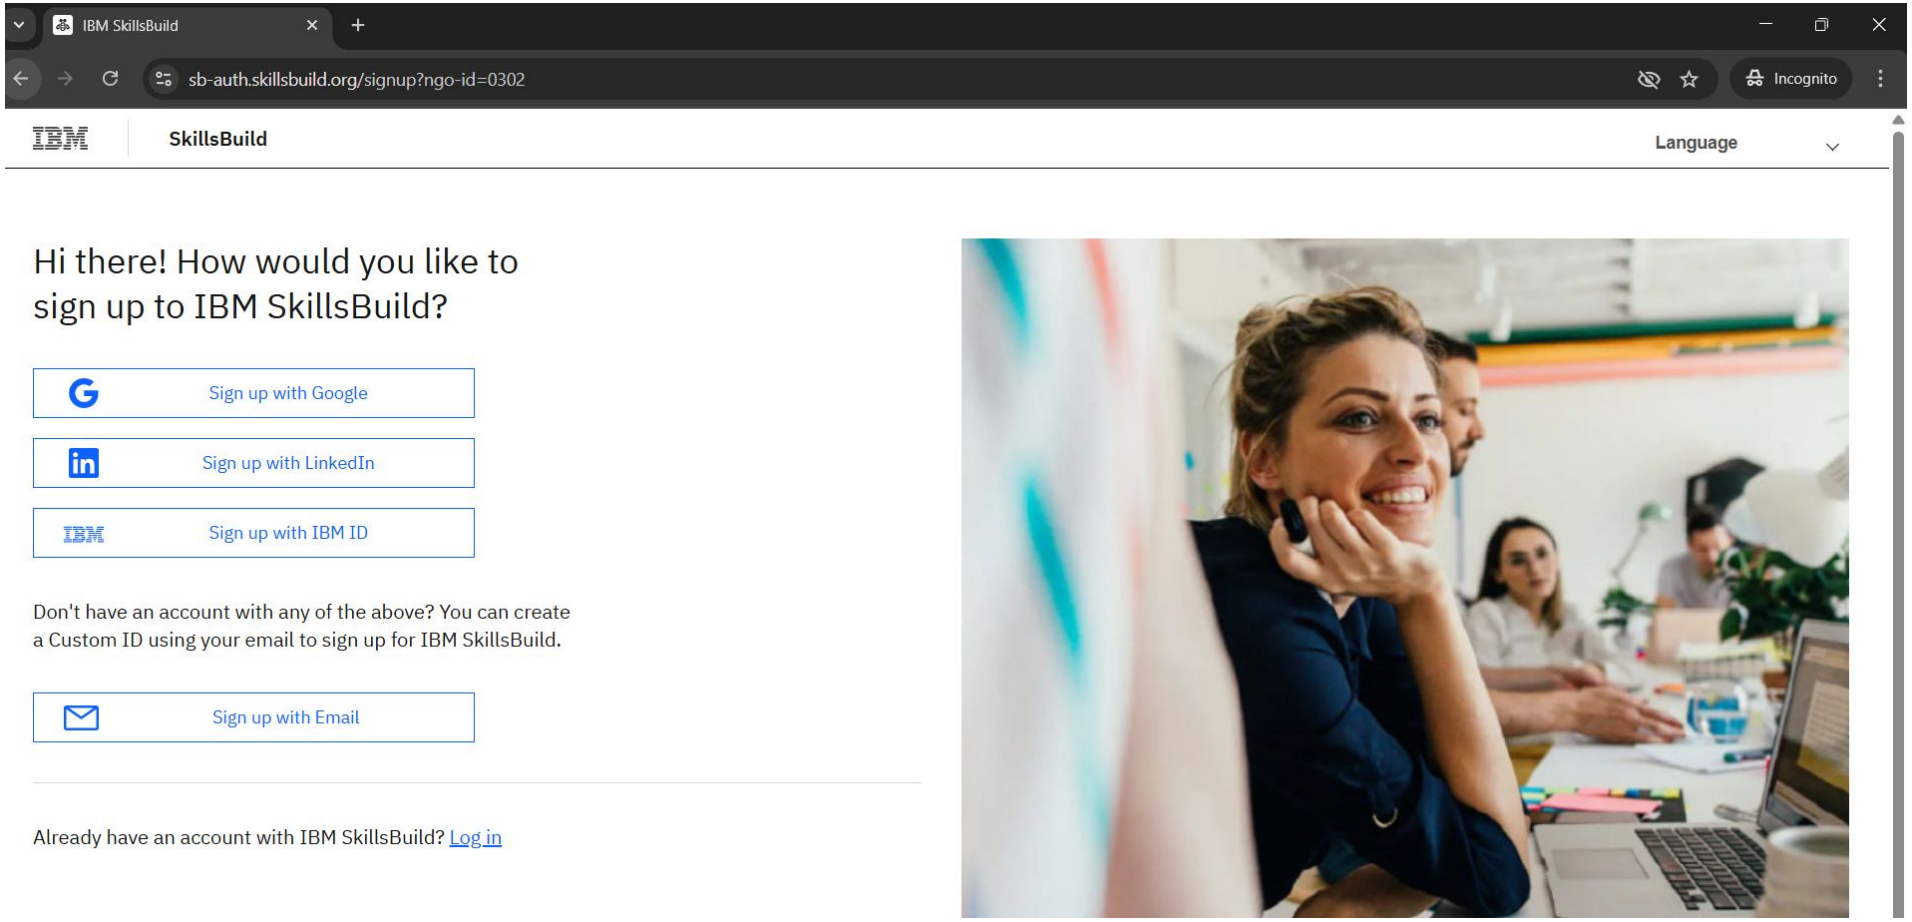
IBM Skill Build Platform

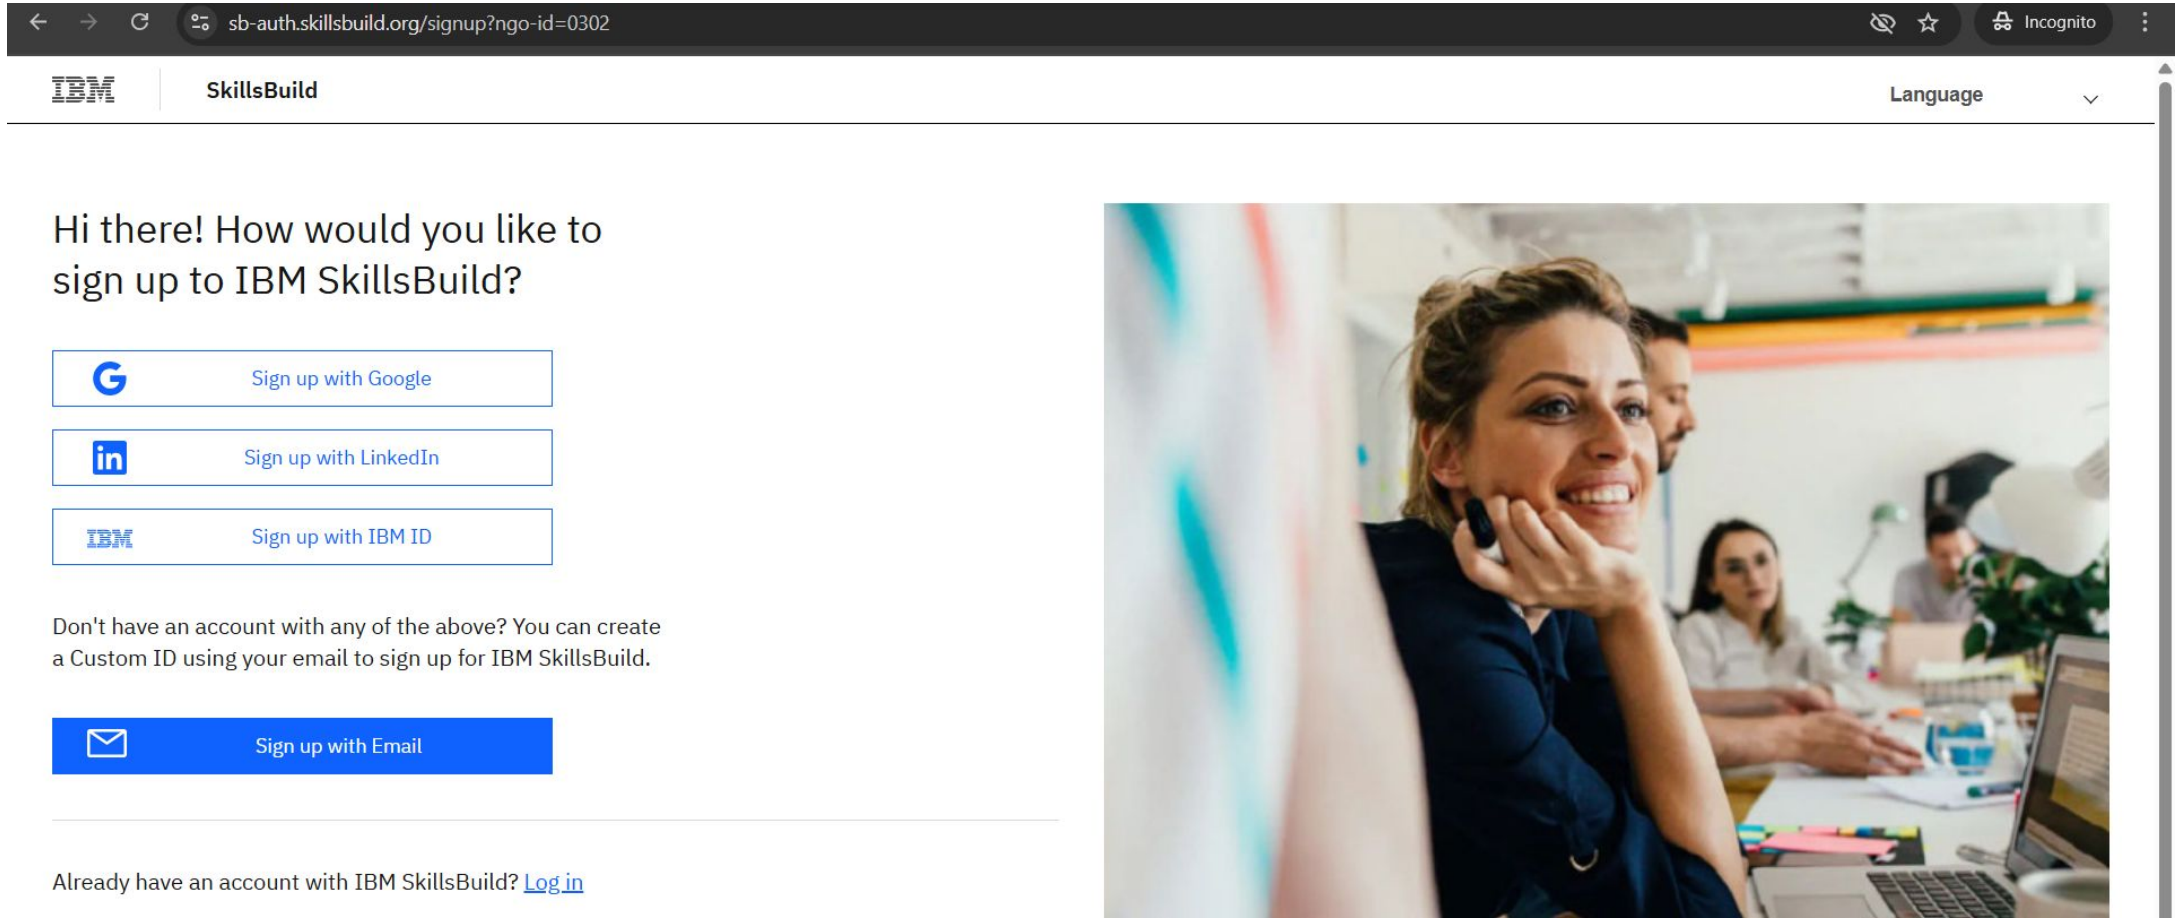
Onboarding Guide

Click on the following link:
https://sb-auth.skillsbuild.org/signup?ngo-id=0434

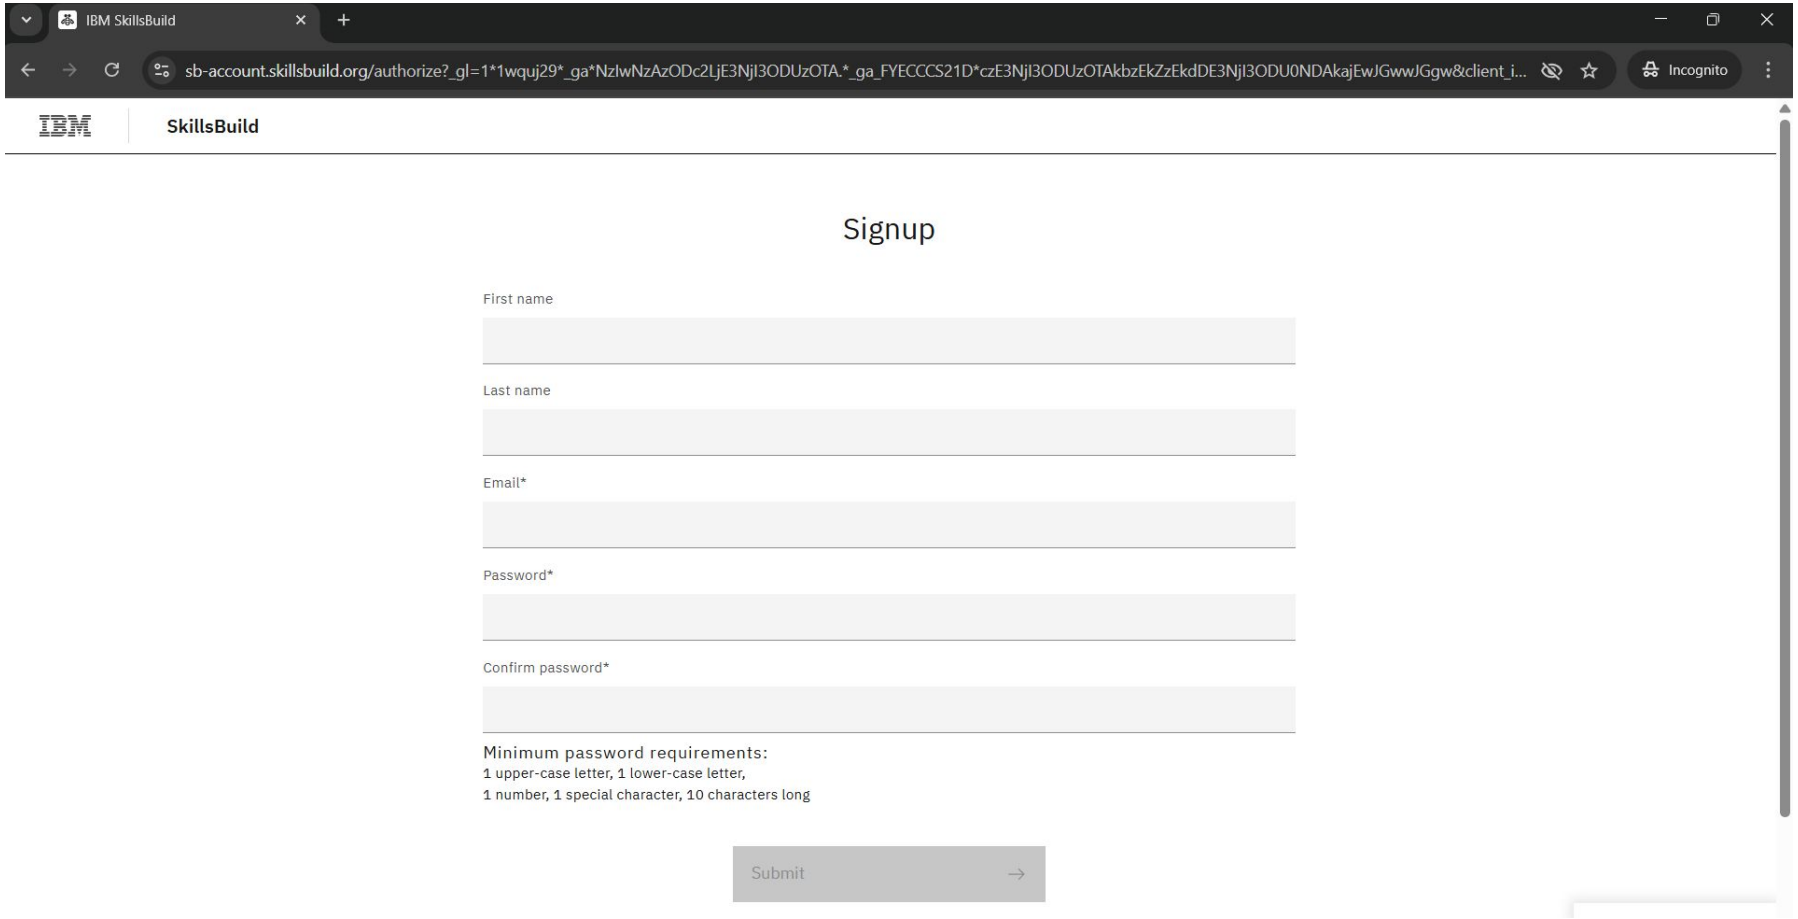
You will find various sign up options as shown below



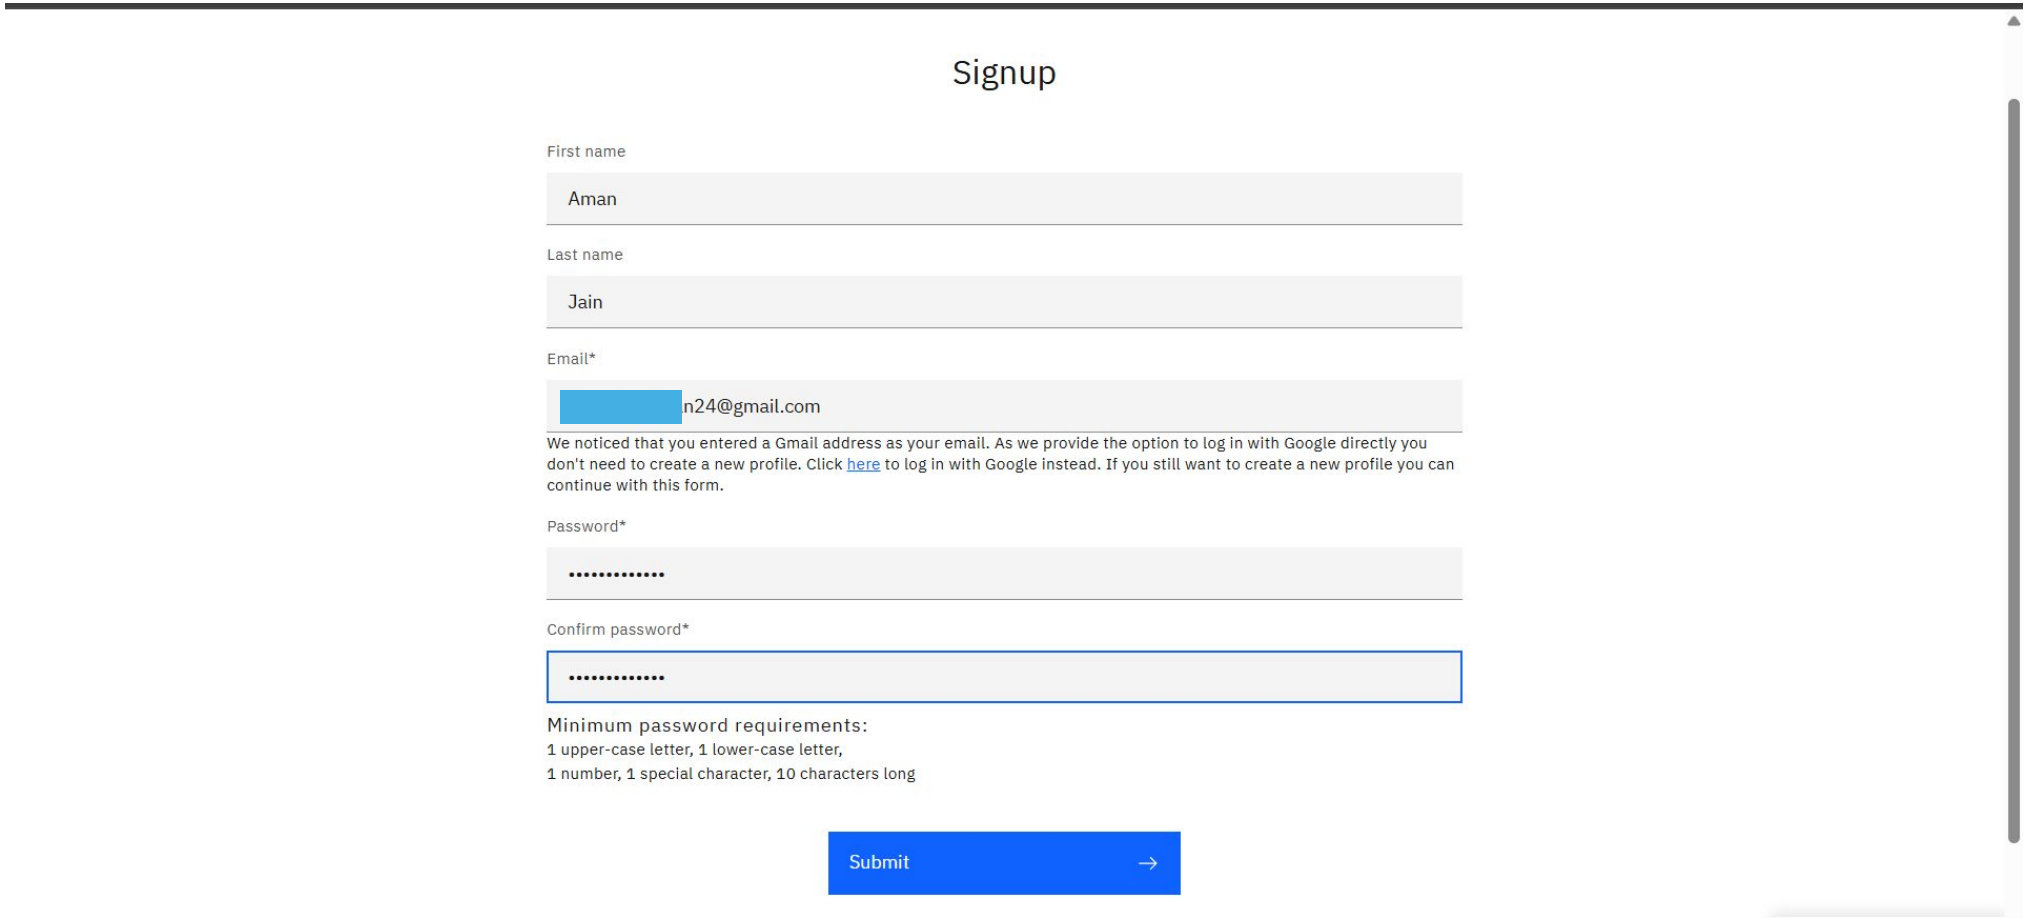
Click on Sign Up with Email



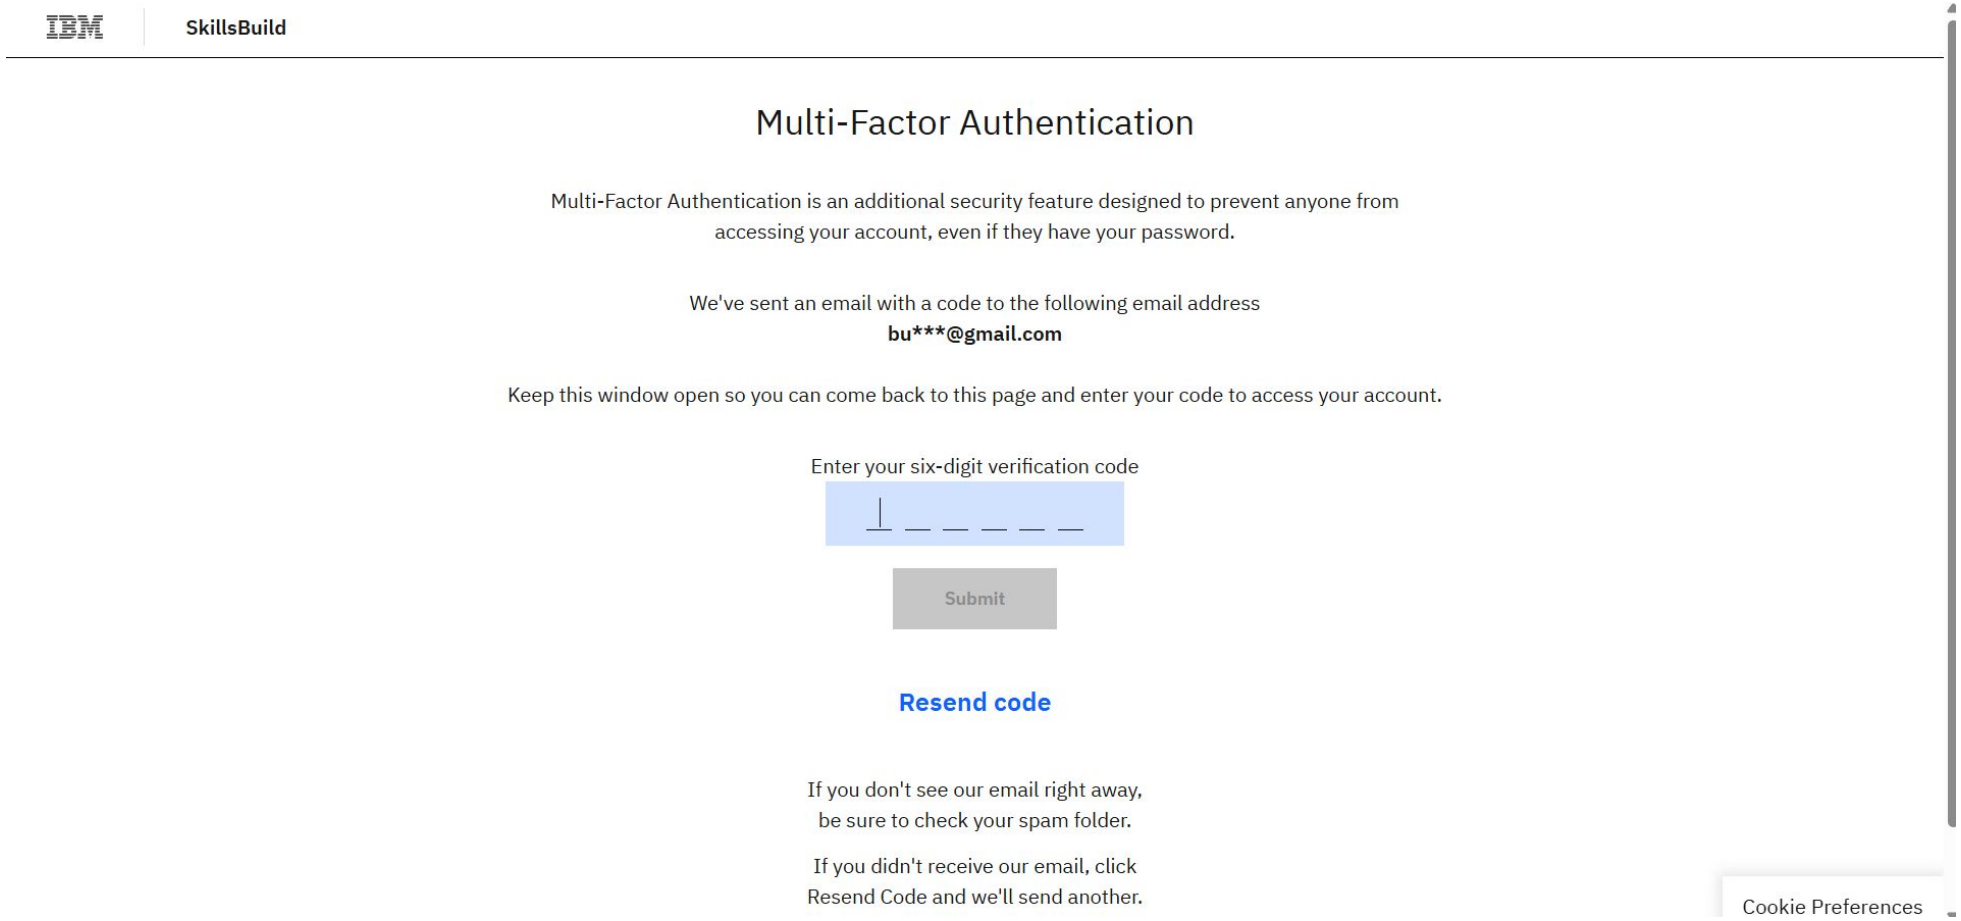
A registration form will appear.
Use your **personal Gmail address** in the email field.



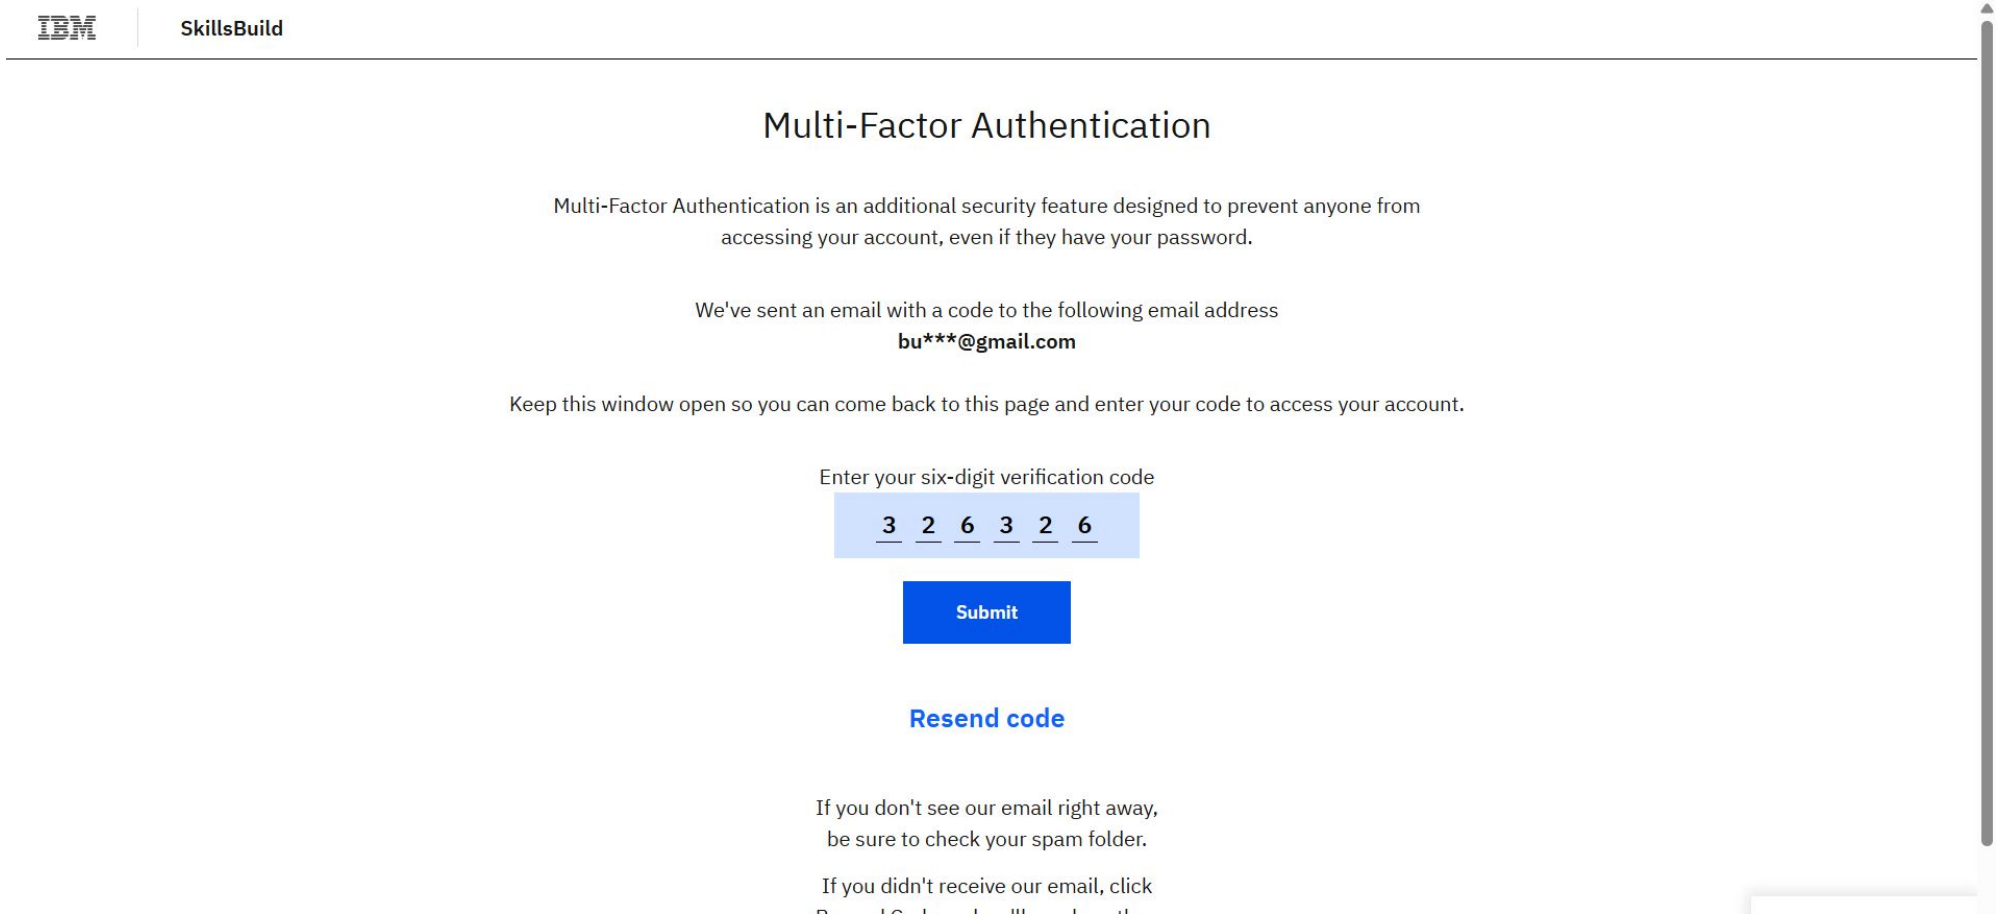
Fill in all required details . Click **Submit** once done.



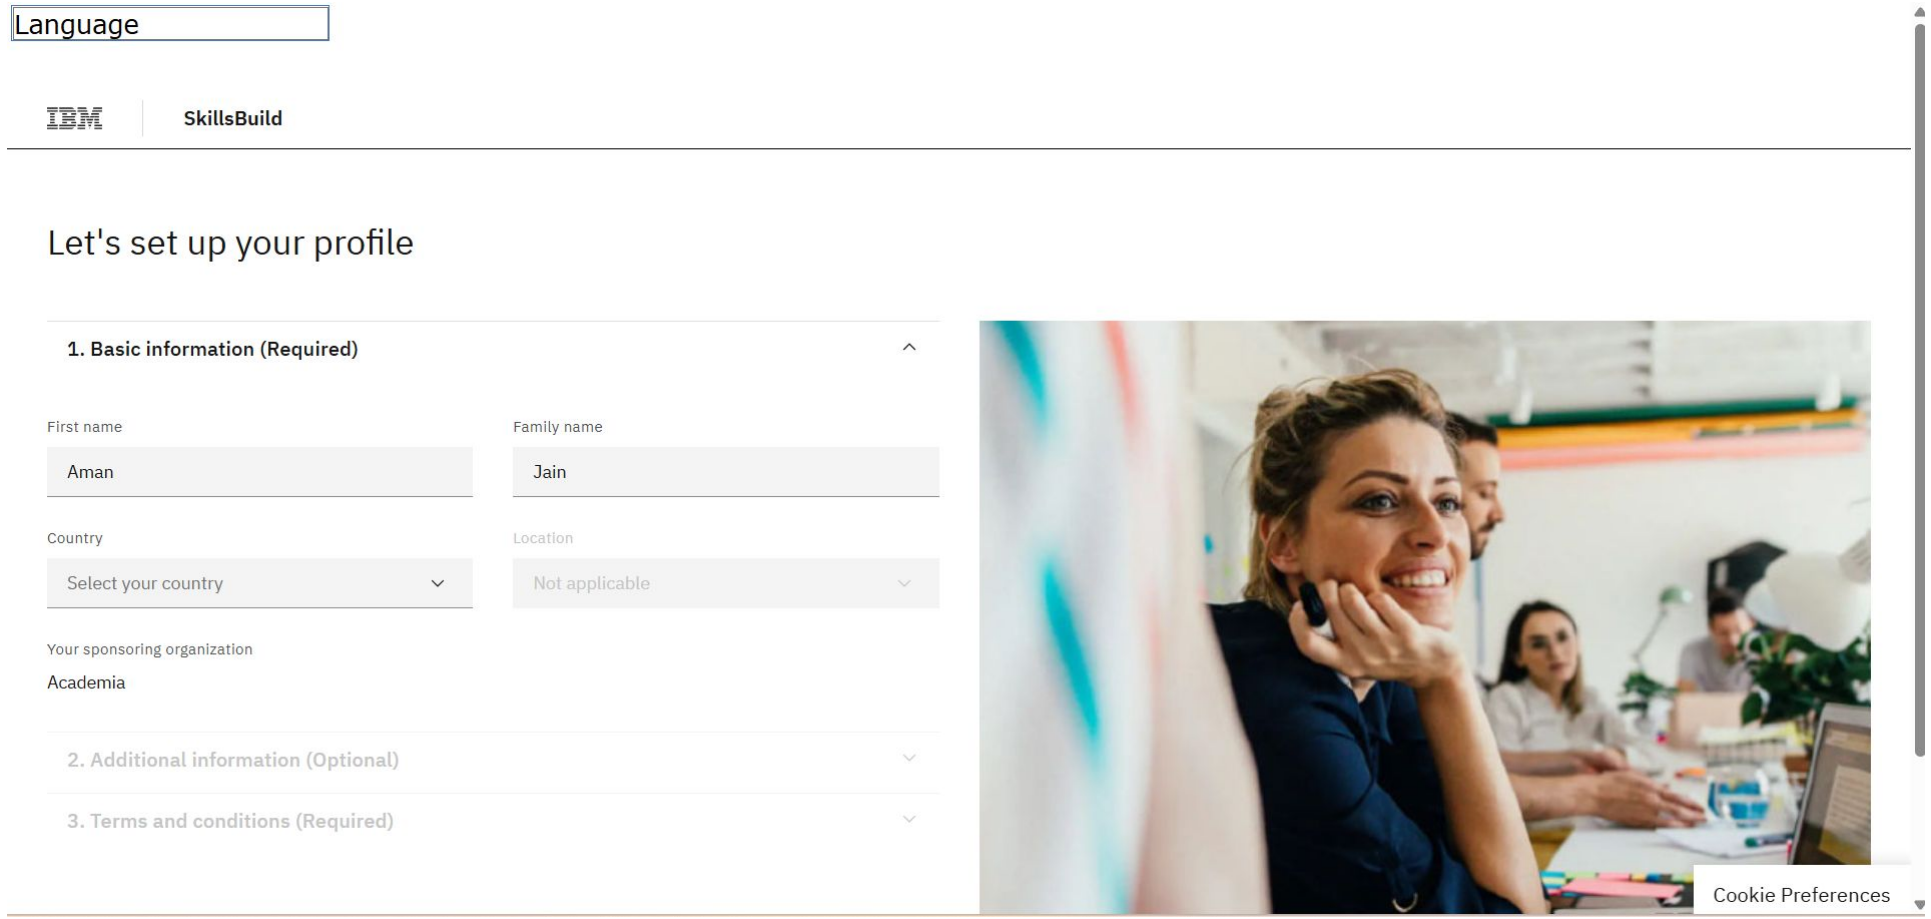
You'll receive a **verification code** in your Gmail inbox.



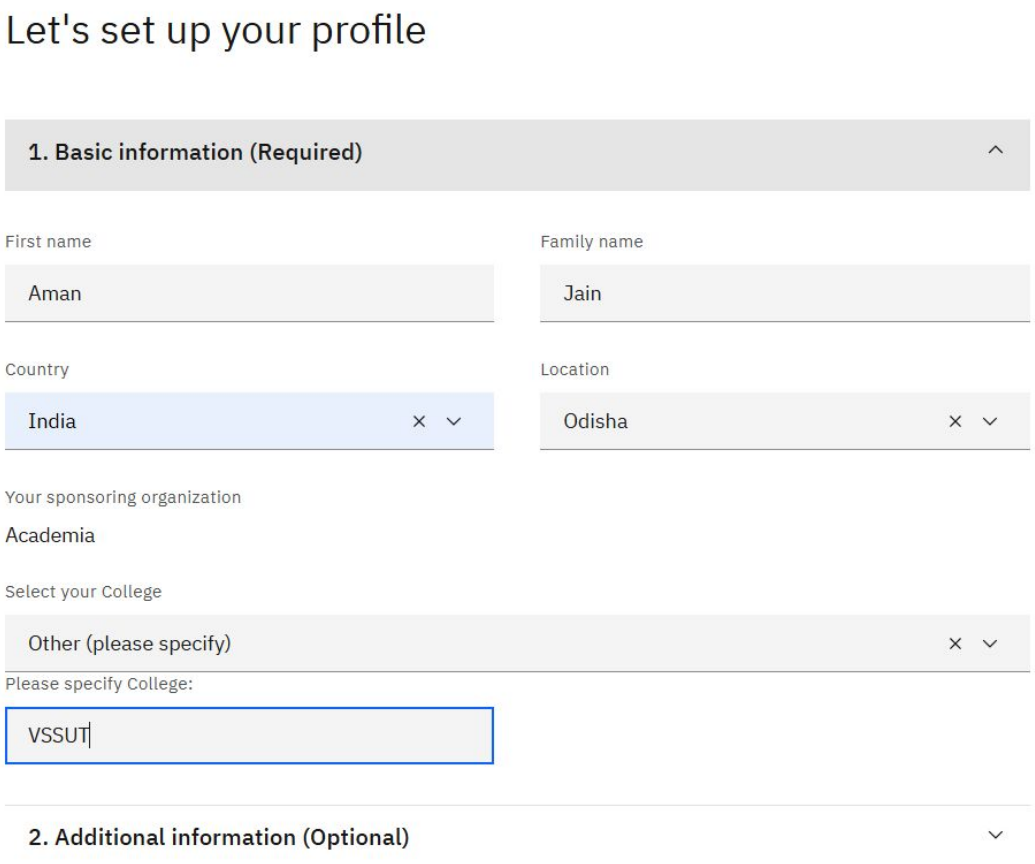
Enter that code in the verification box on the website.Click **Submit** to continue.



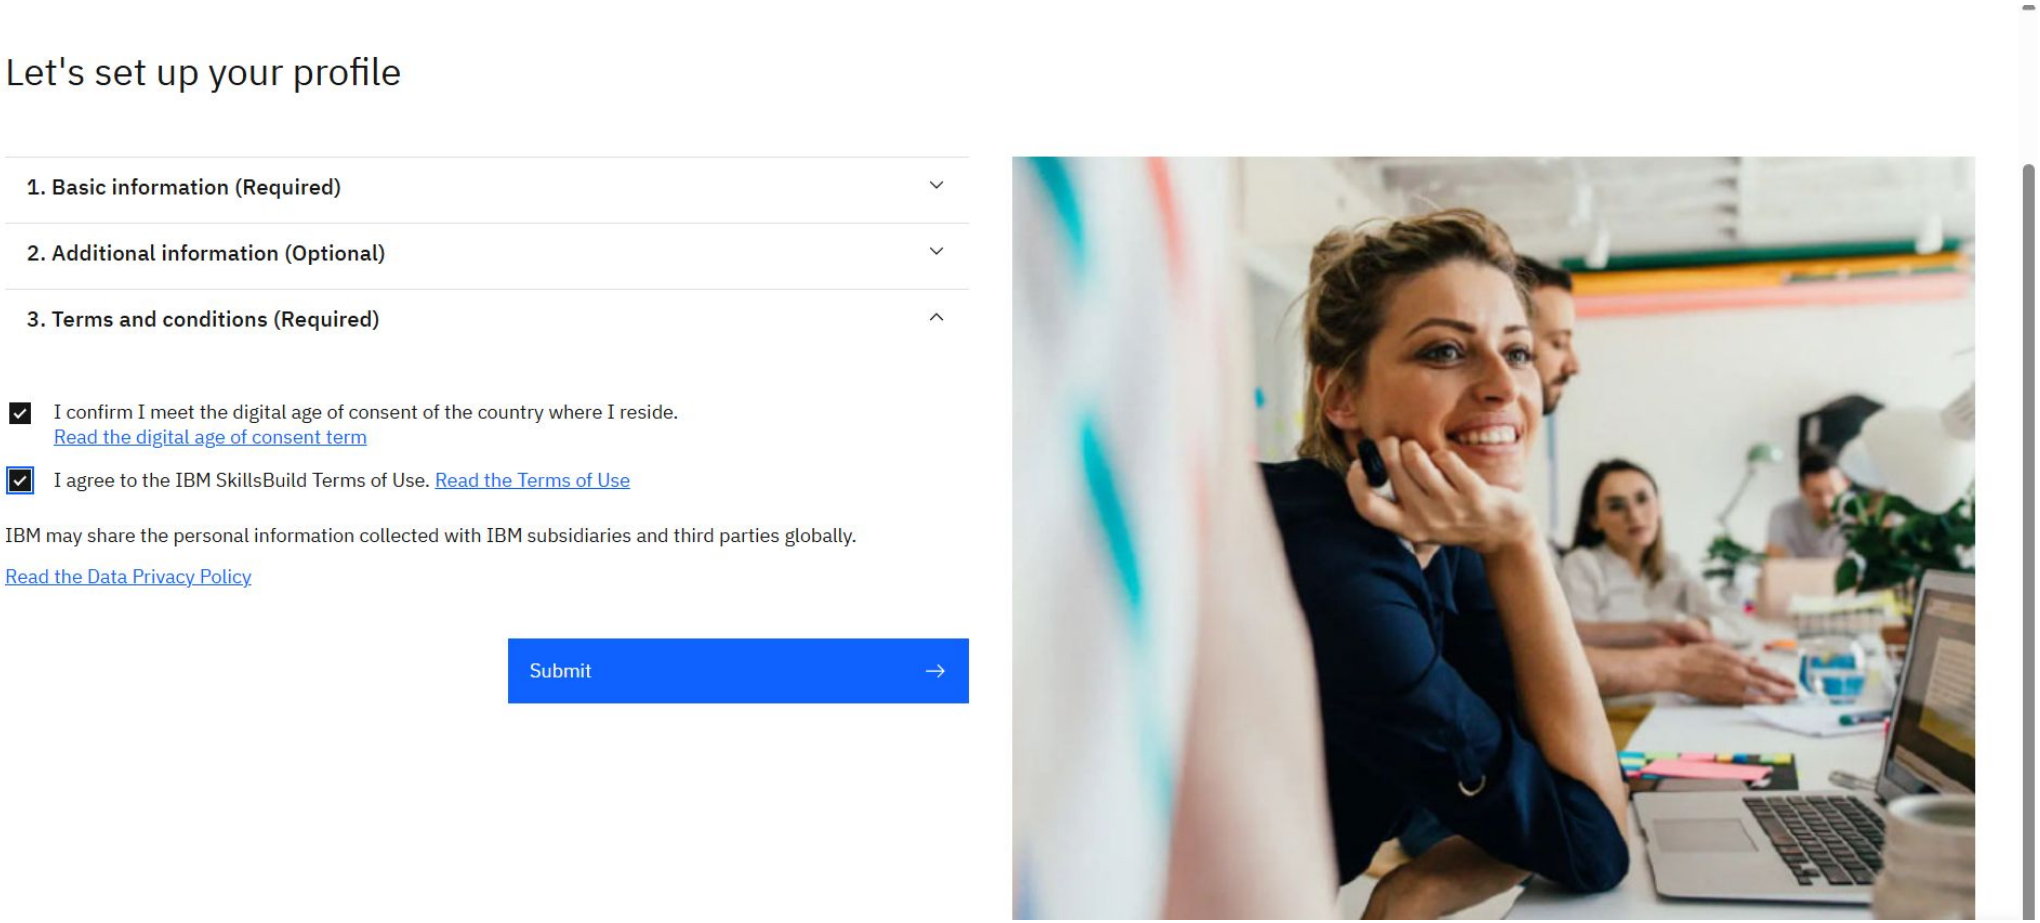
You'll now see a screen asking for your **profile details**.



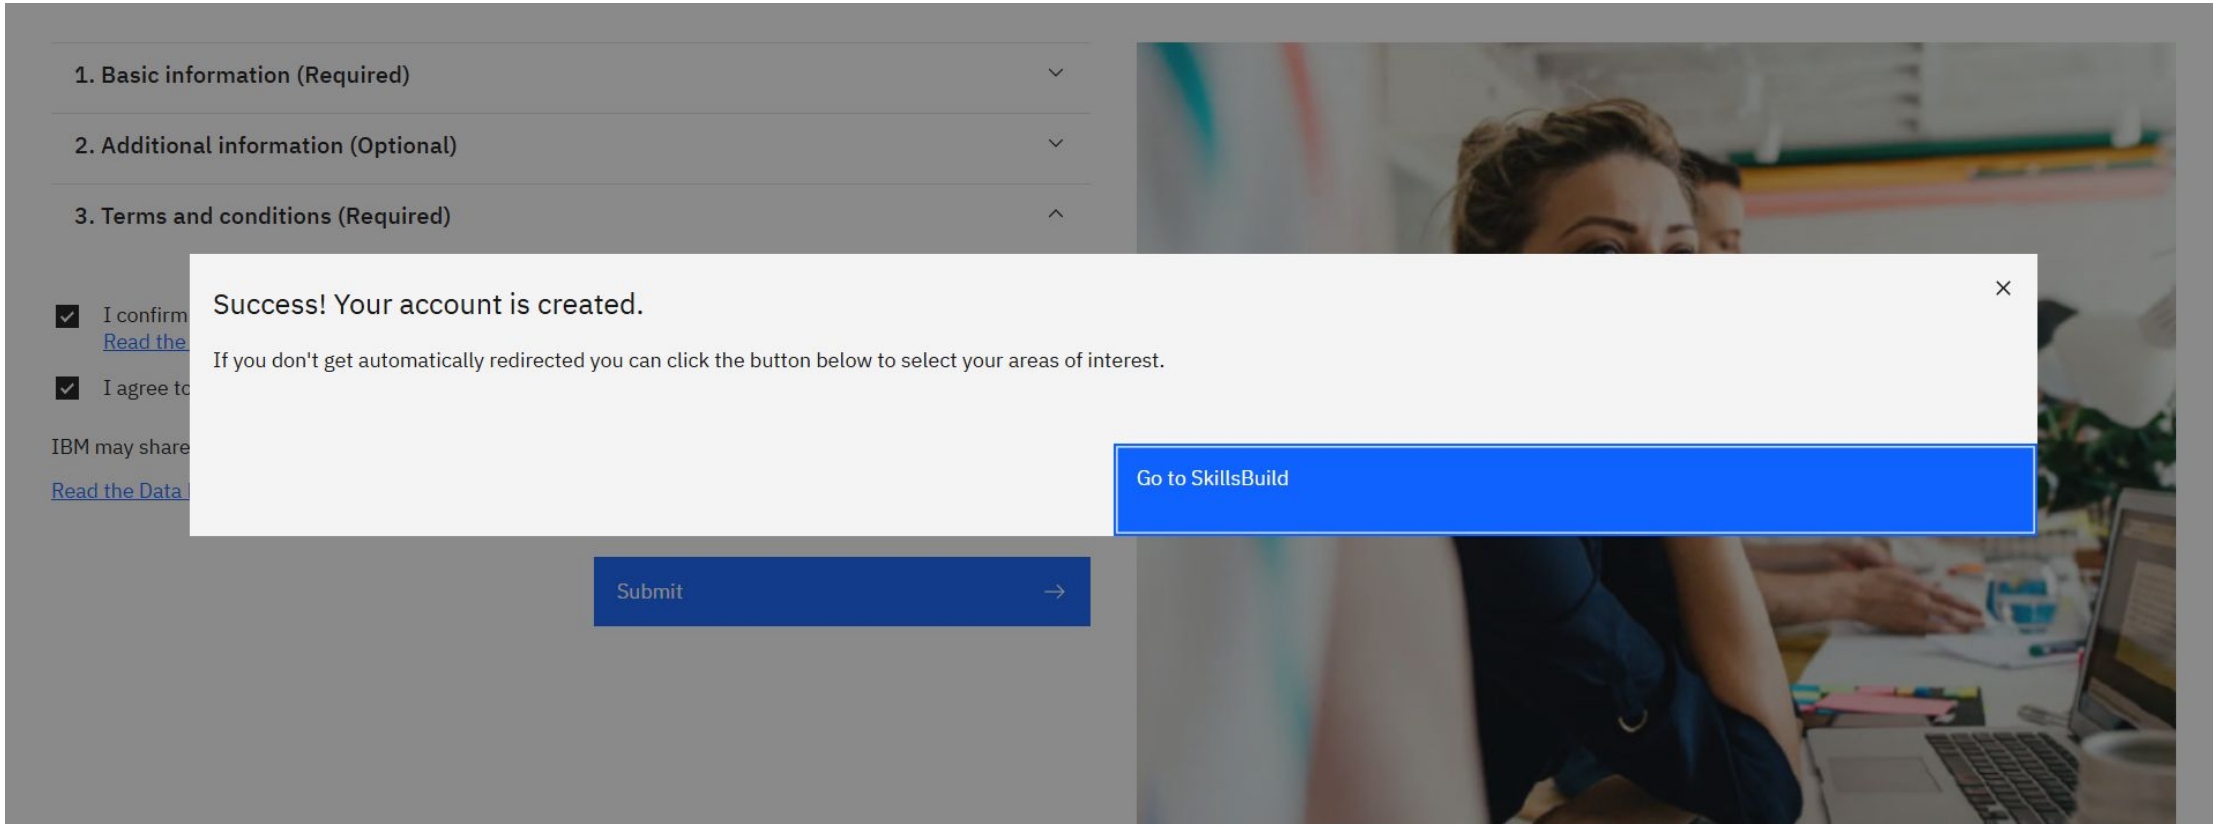
In the **College Name** dropdown : Select **Others**
Then type your **college name** in the text box that appears.



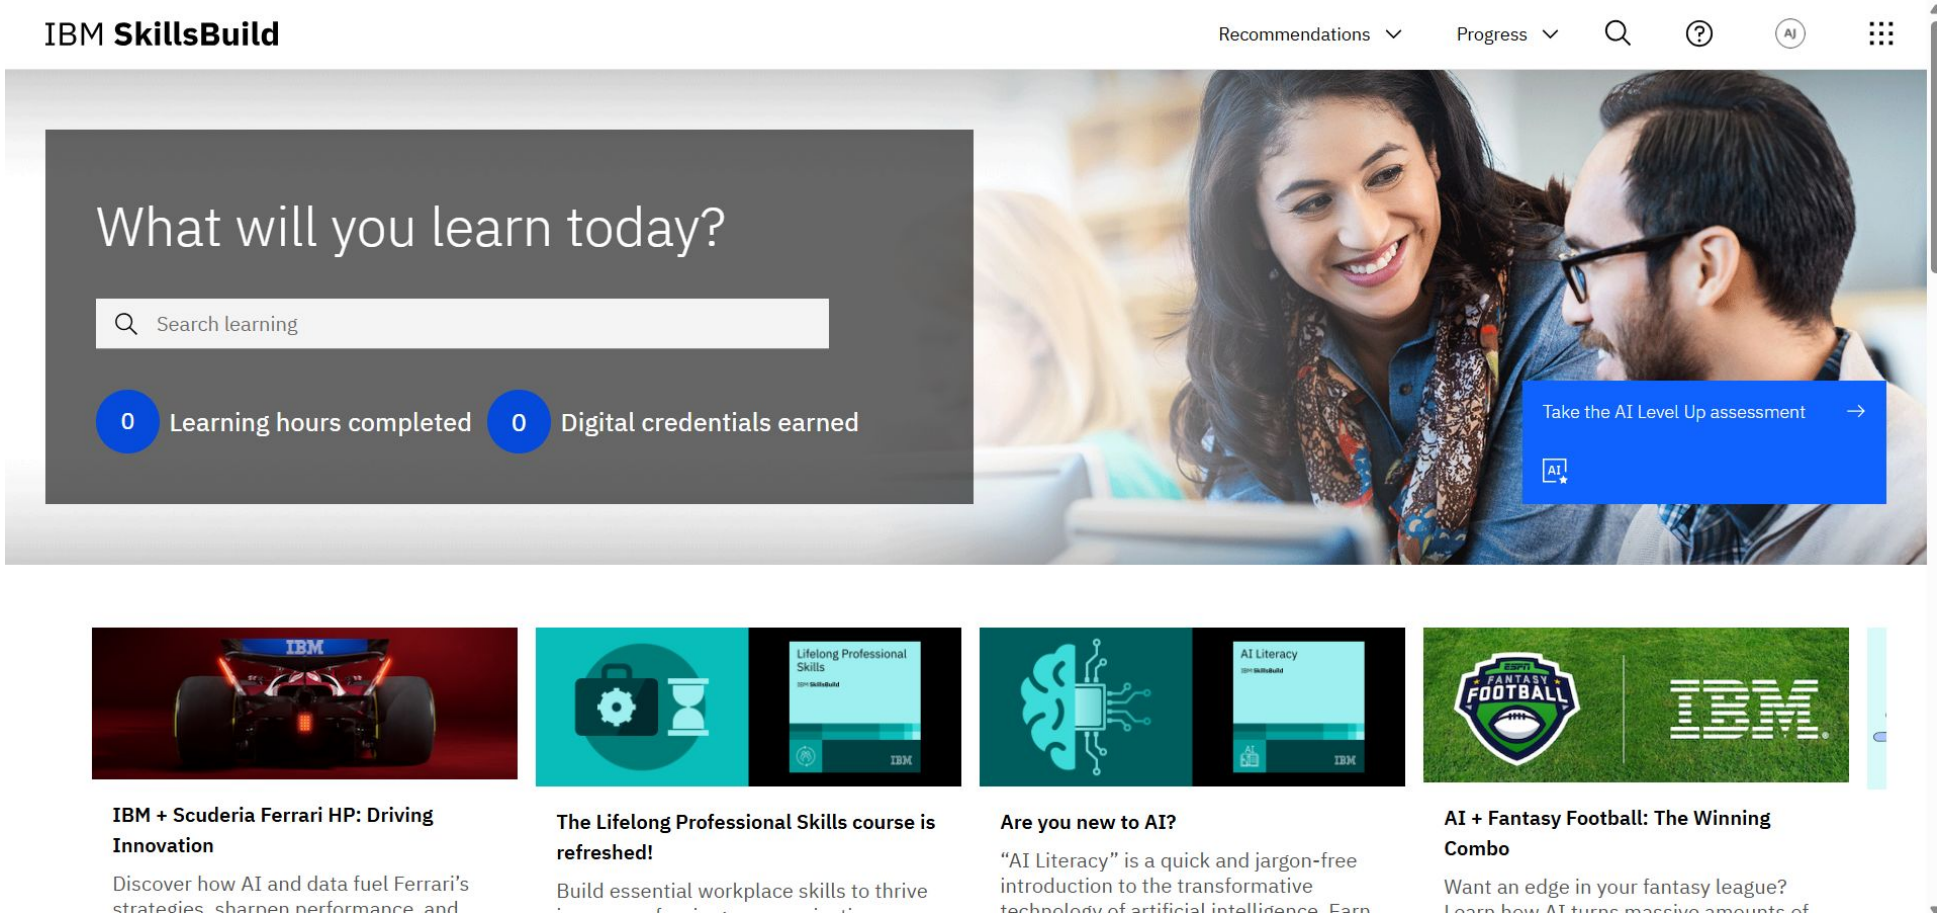
Scroll to the **Terms and Conditions** section. Click the toggle arrow to expand. Tick all the required checkboxes. Click Submit.



A pop-up will appear confirming your registration.
Click on the **Go to SkillsBuild** button.

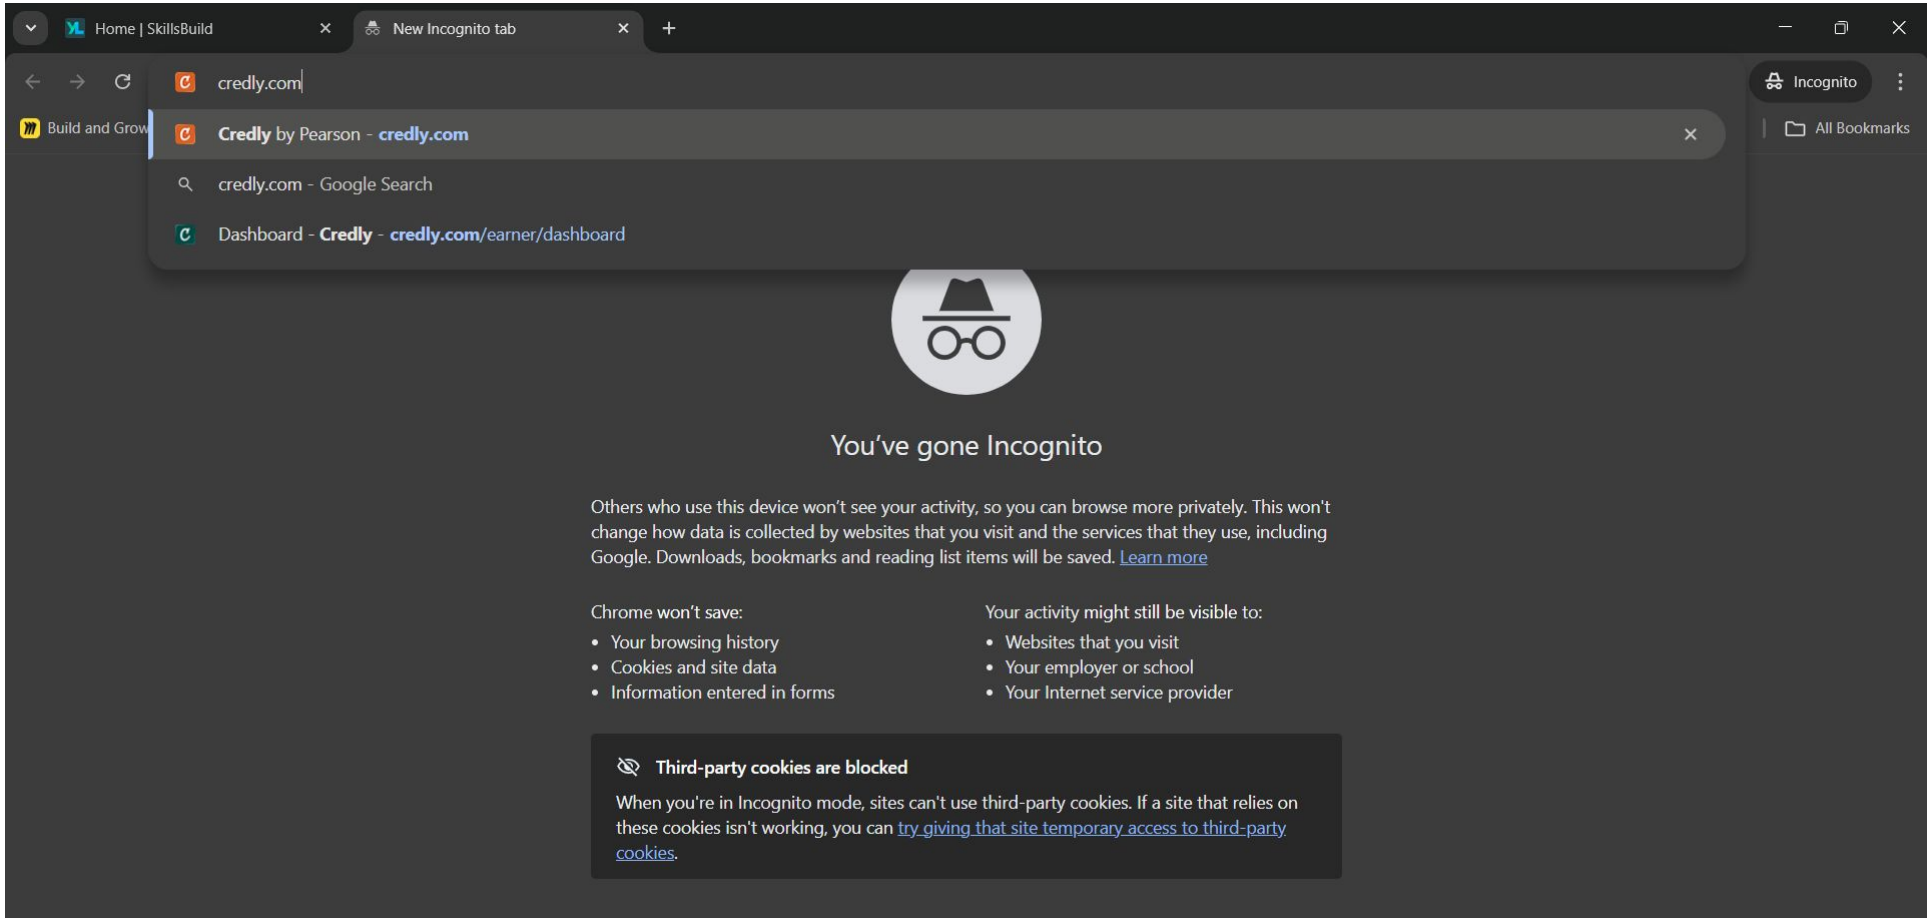


You will now land on the **IBM SkillsBuild** dashboard.

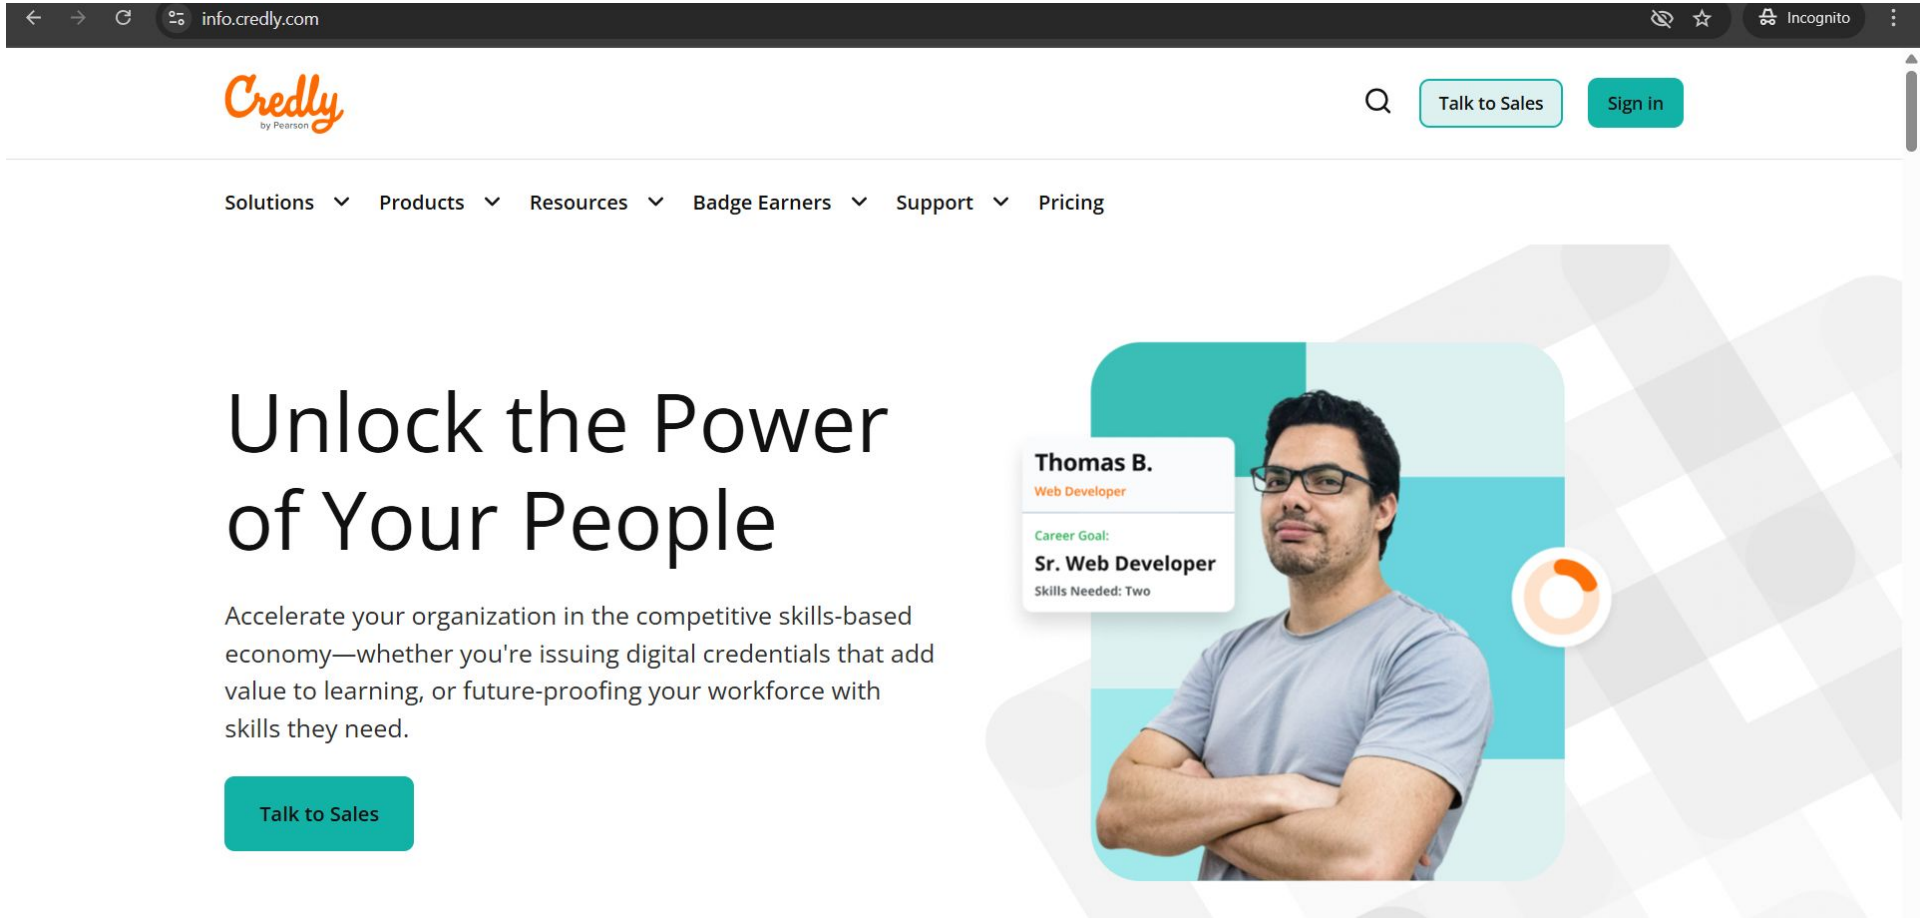


Credly Setup

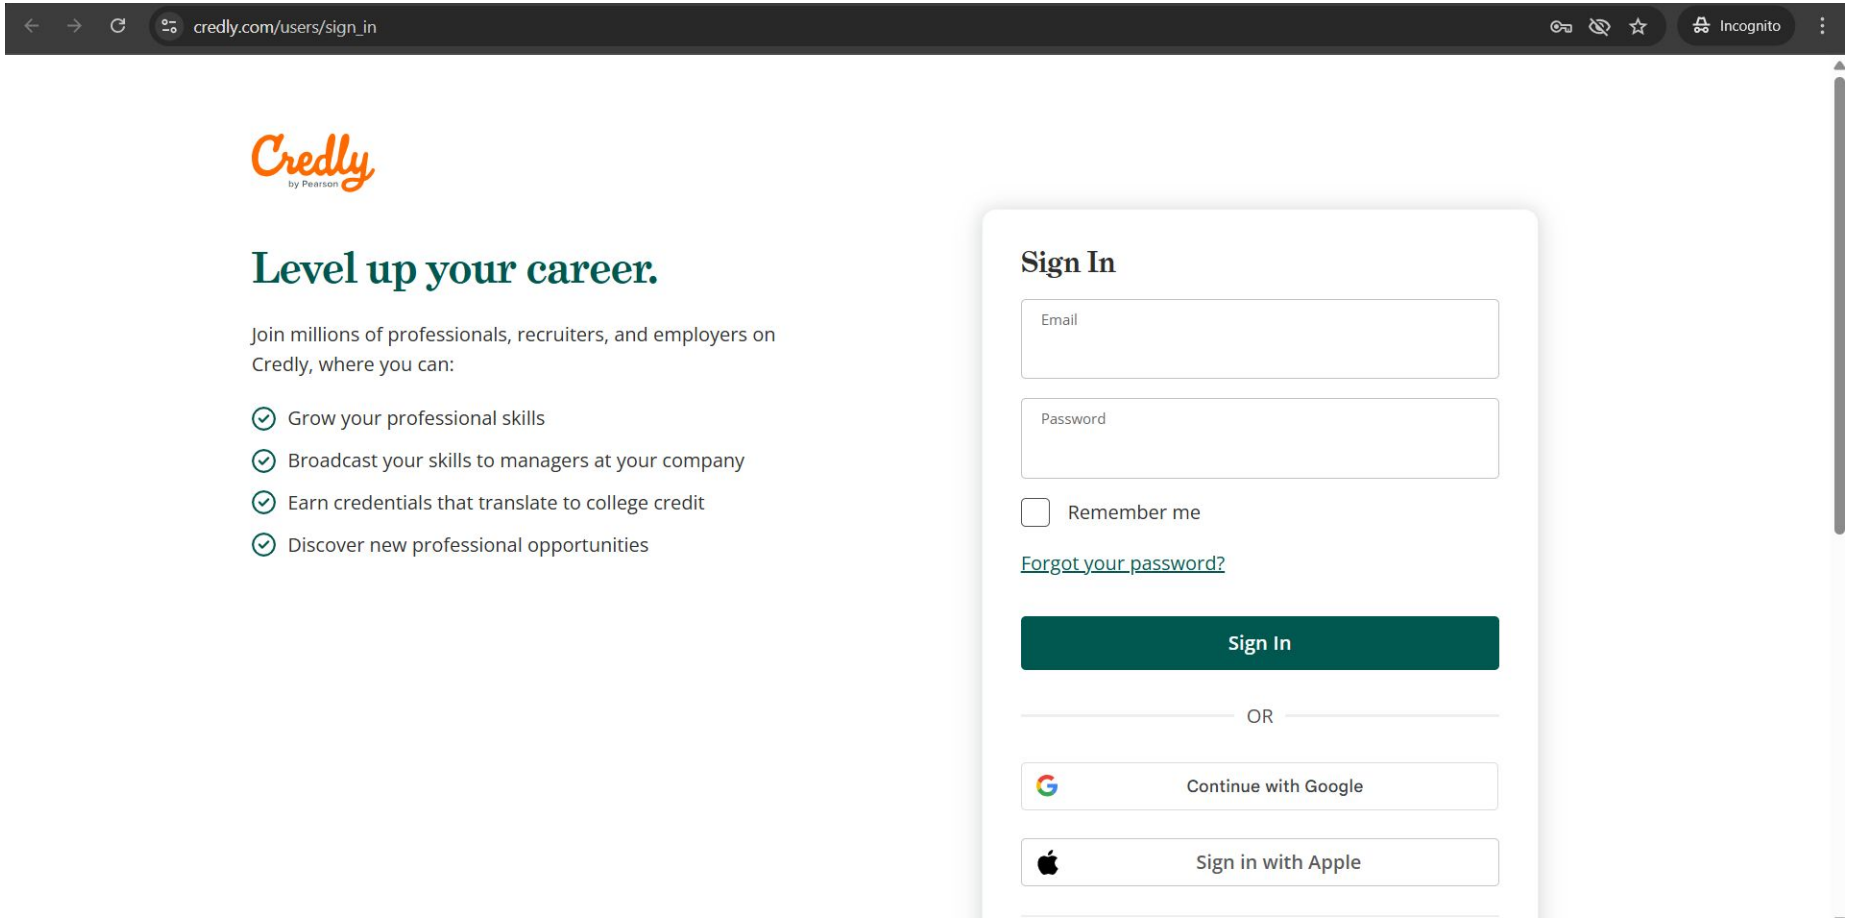
Launch your Chrome browser on your laptop or phone. In the address bar, type **credly.com** and press **Enter**.



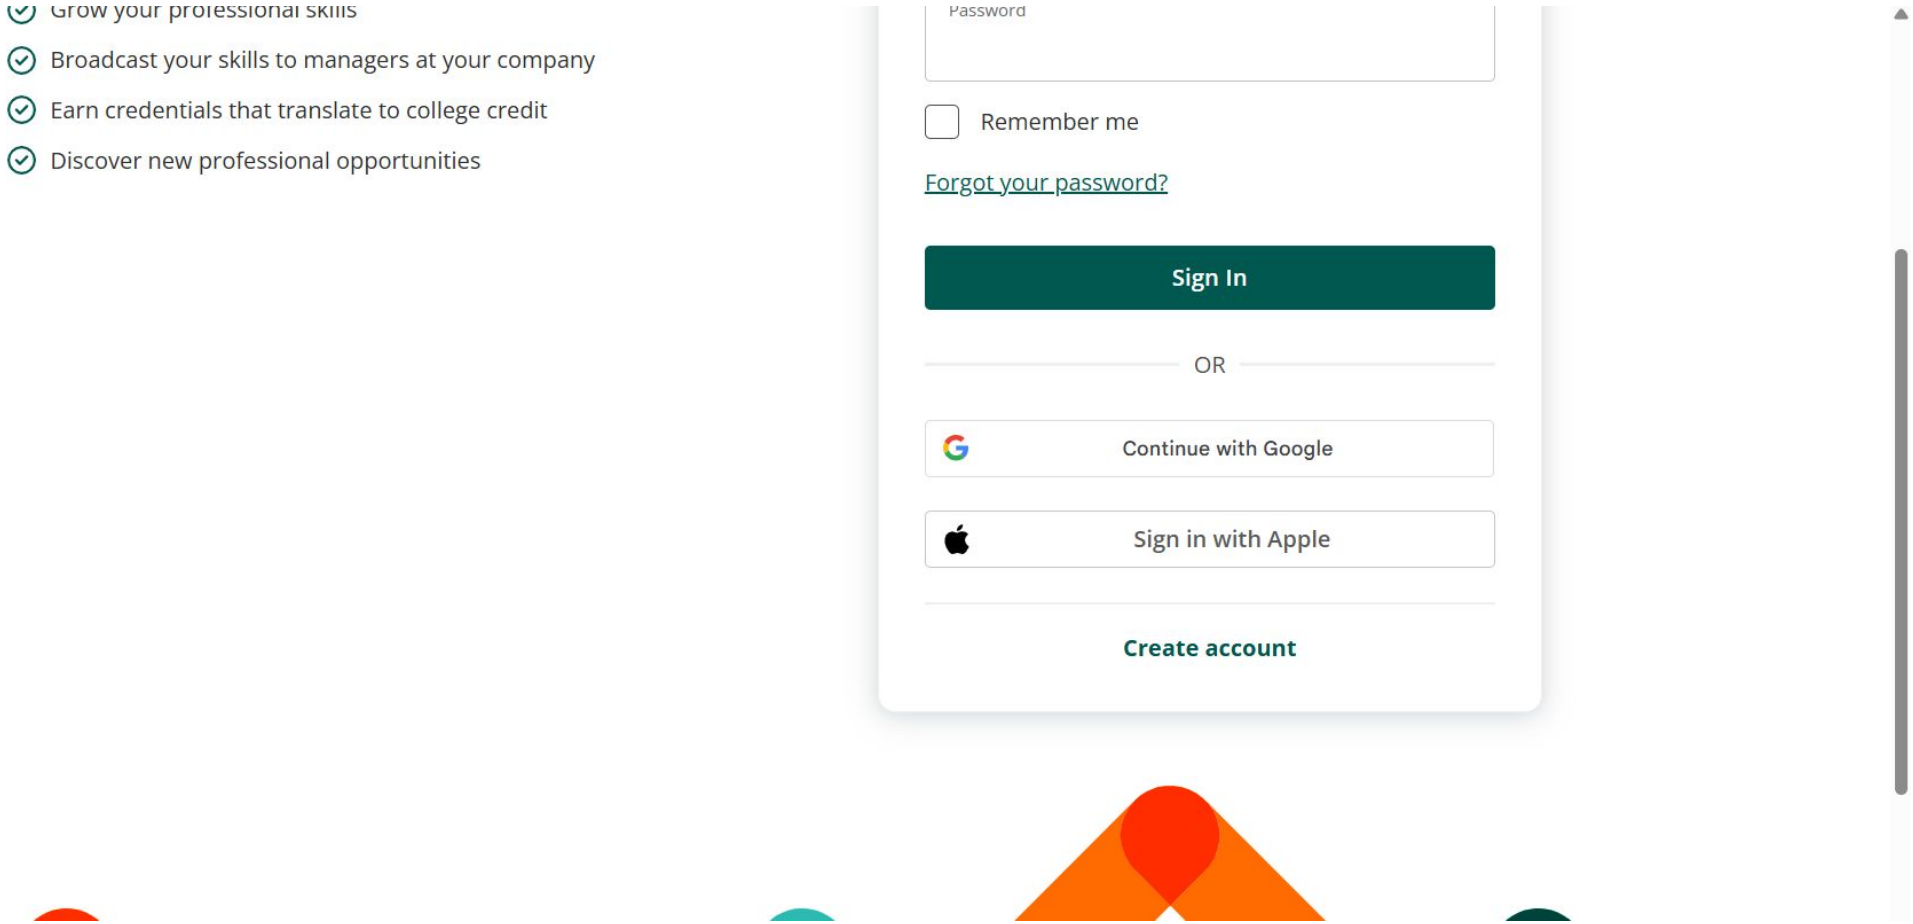
Once the homepage loads, click **Sign In** at the top right corner.



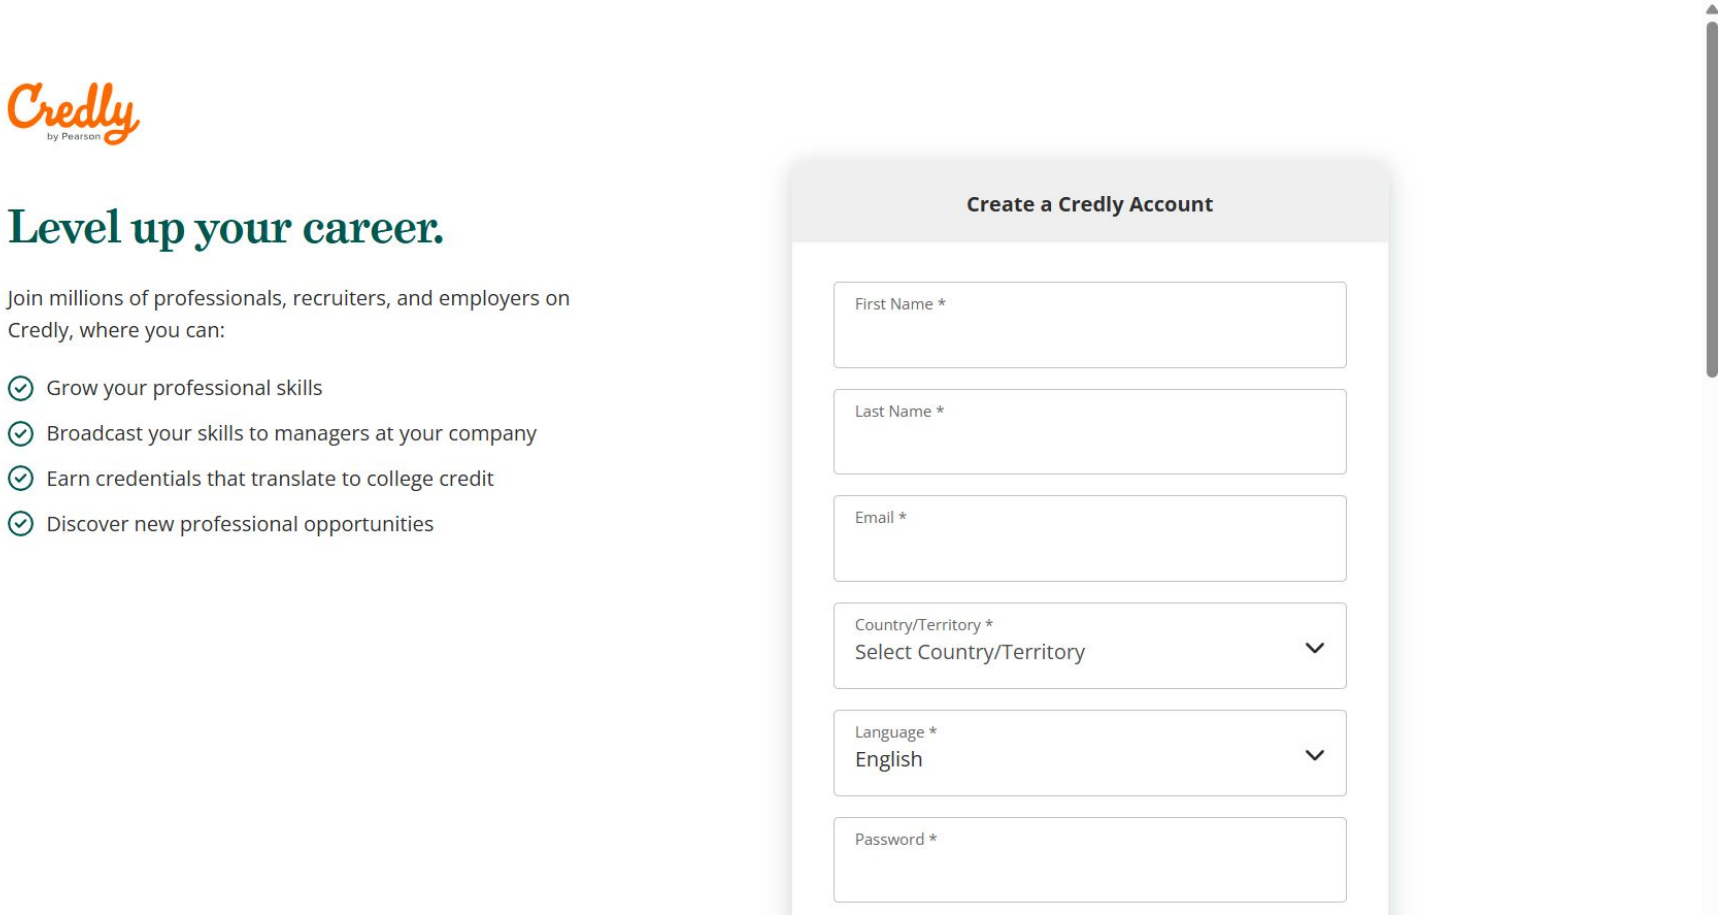
If you don’t already have an account, click on the **Create Account** link below the sign-in form.



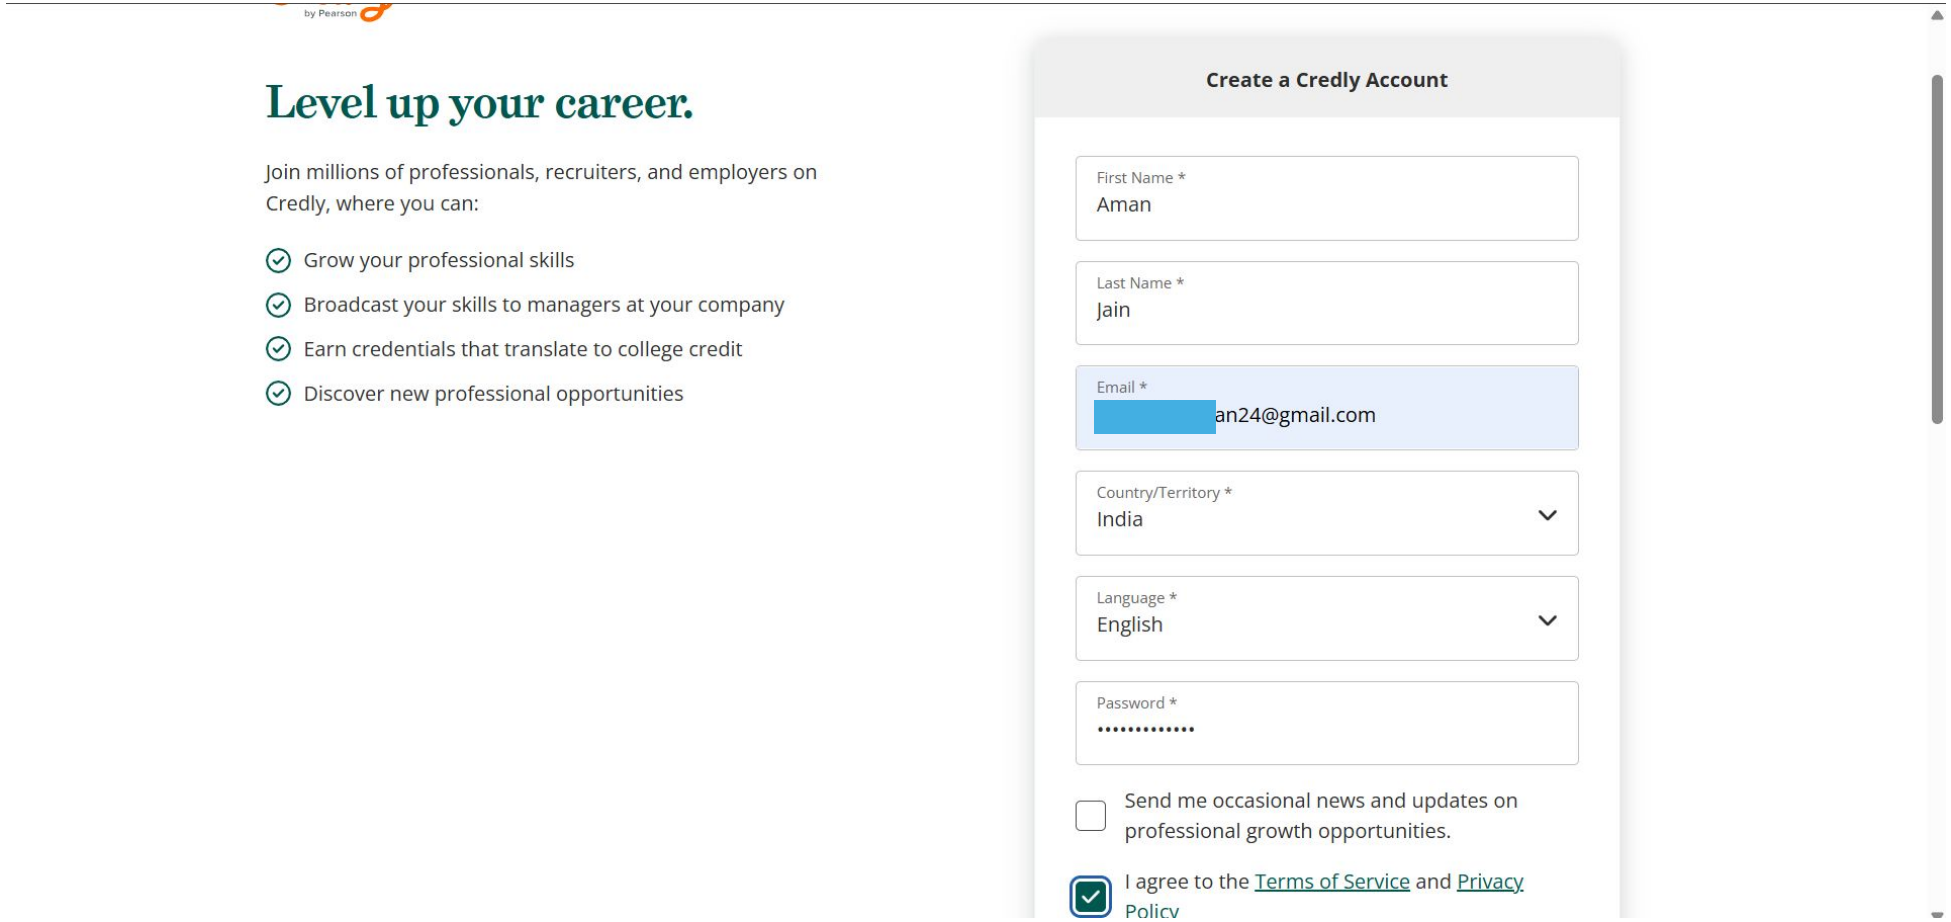
Click on Create Account



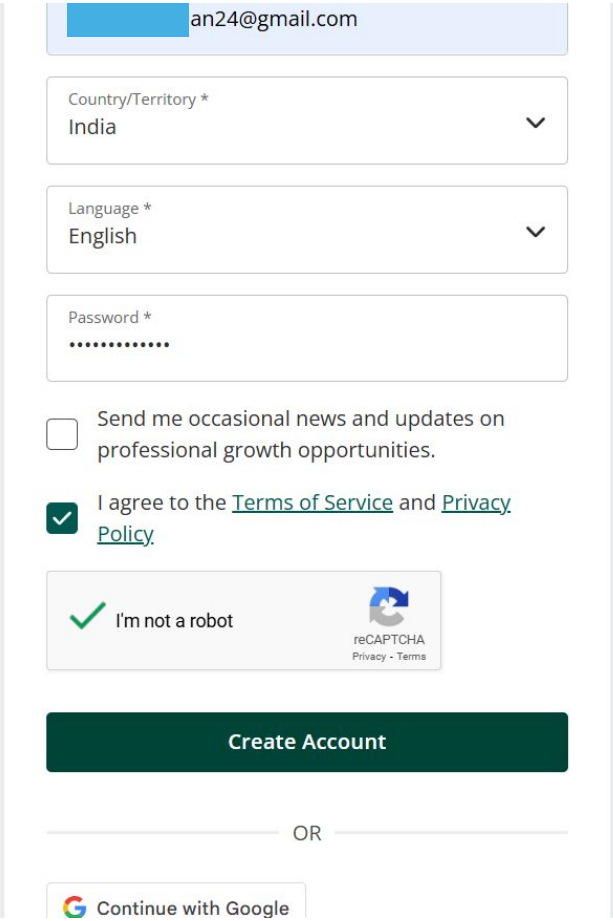
A registration form will appear. Use your personal Gmail address (same one you used for IBM SkillsBuild) Set a strong password



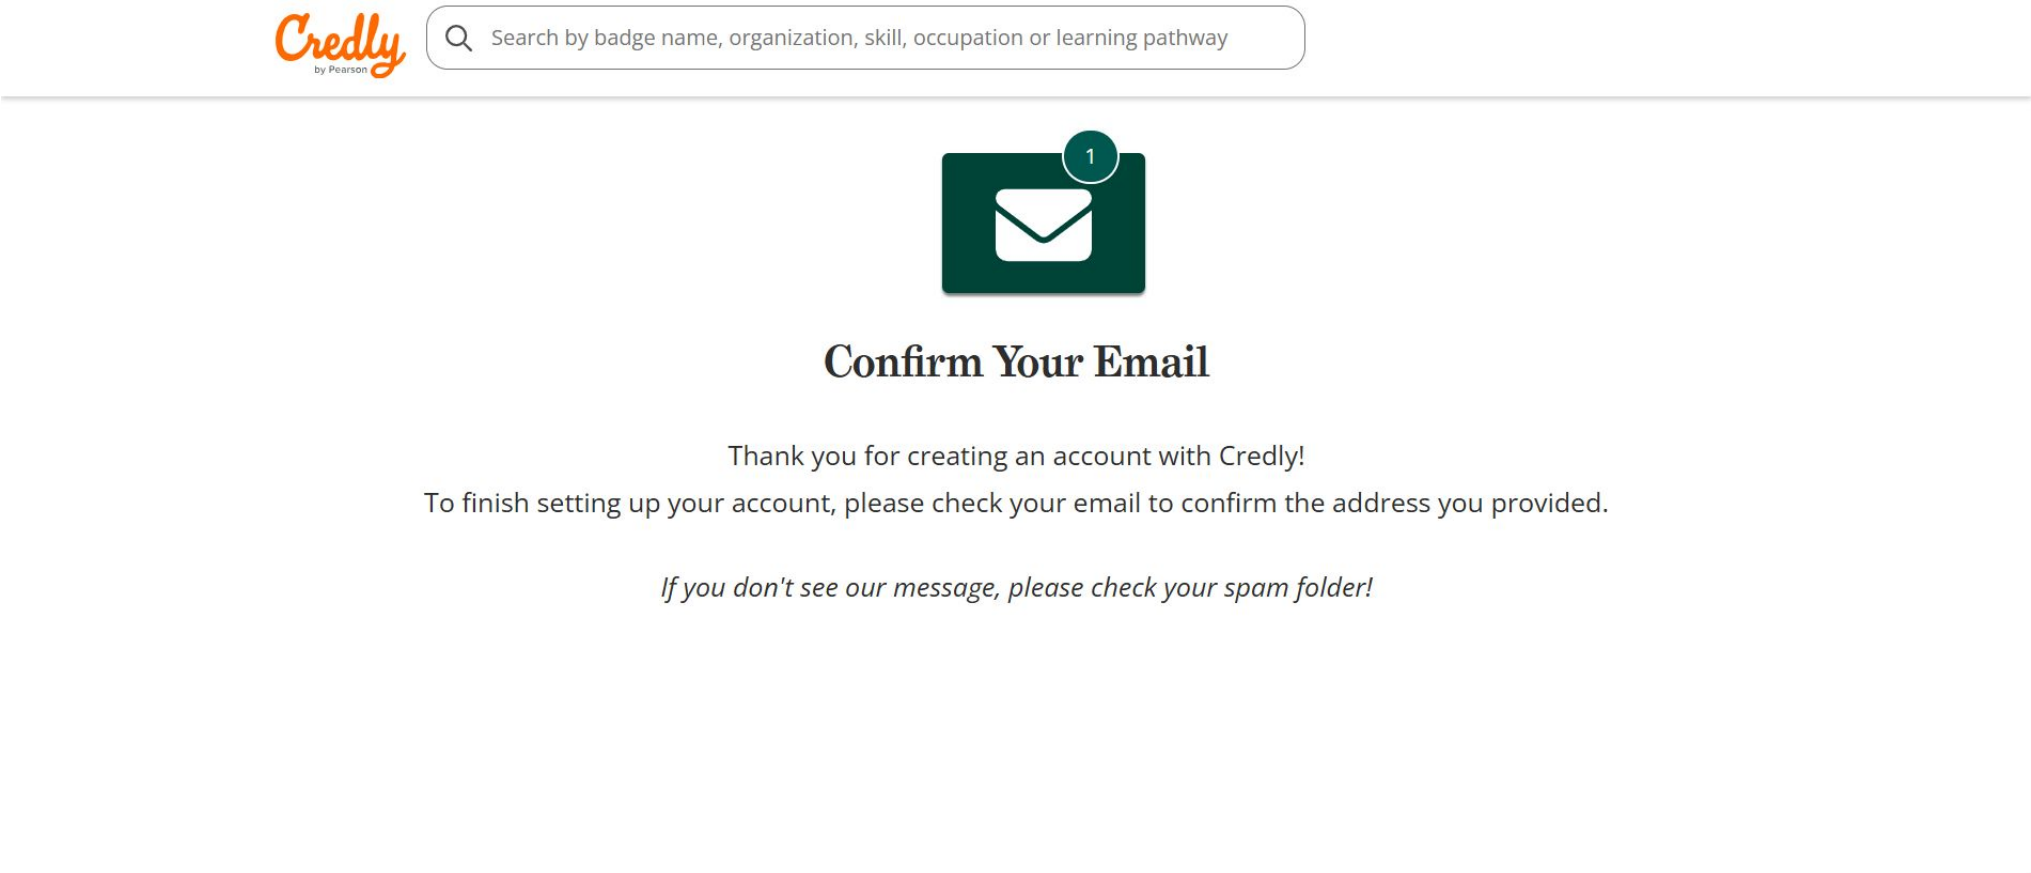
Tick the checkbox to agree to Credly's terms Click Create Account



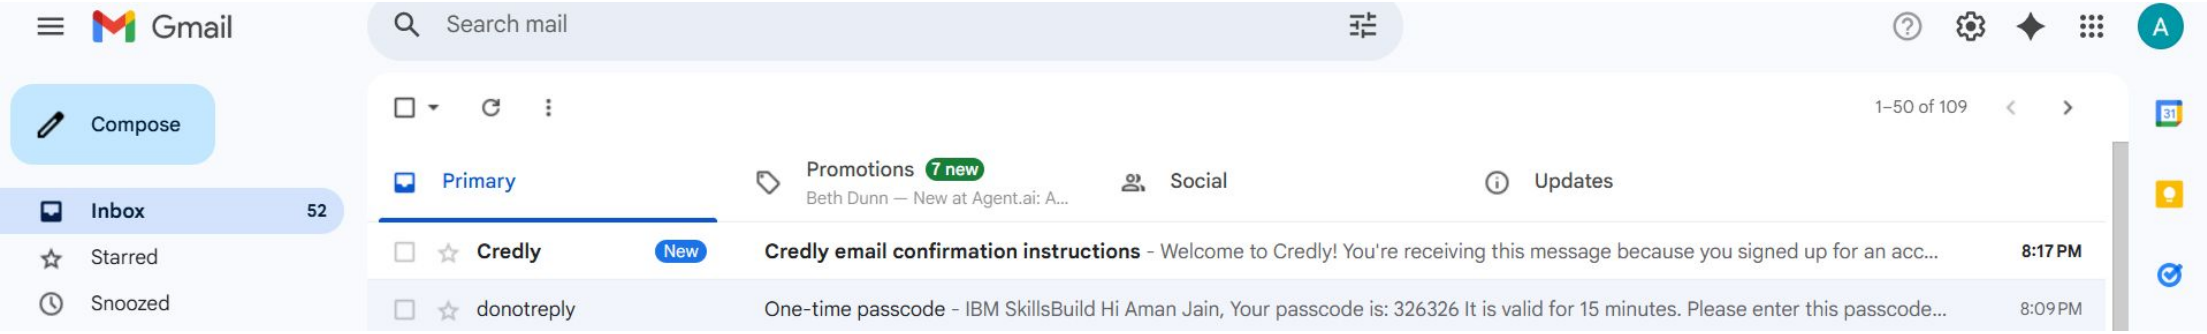
Click on Create Account



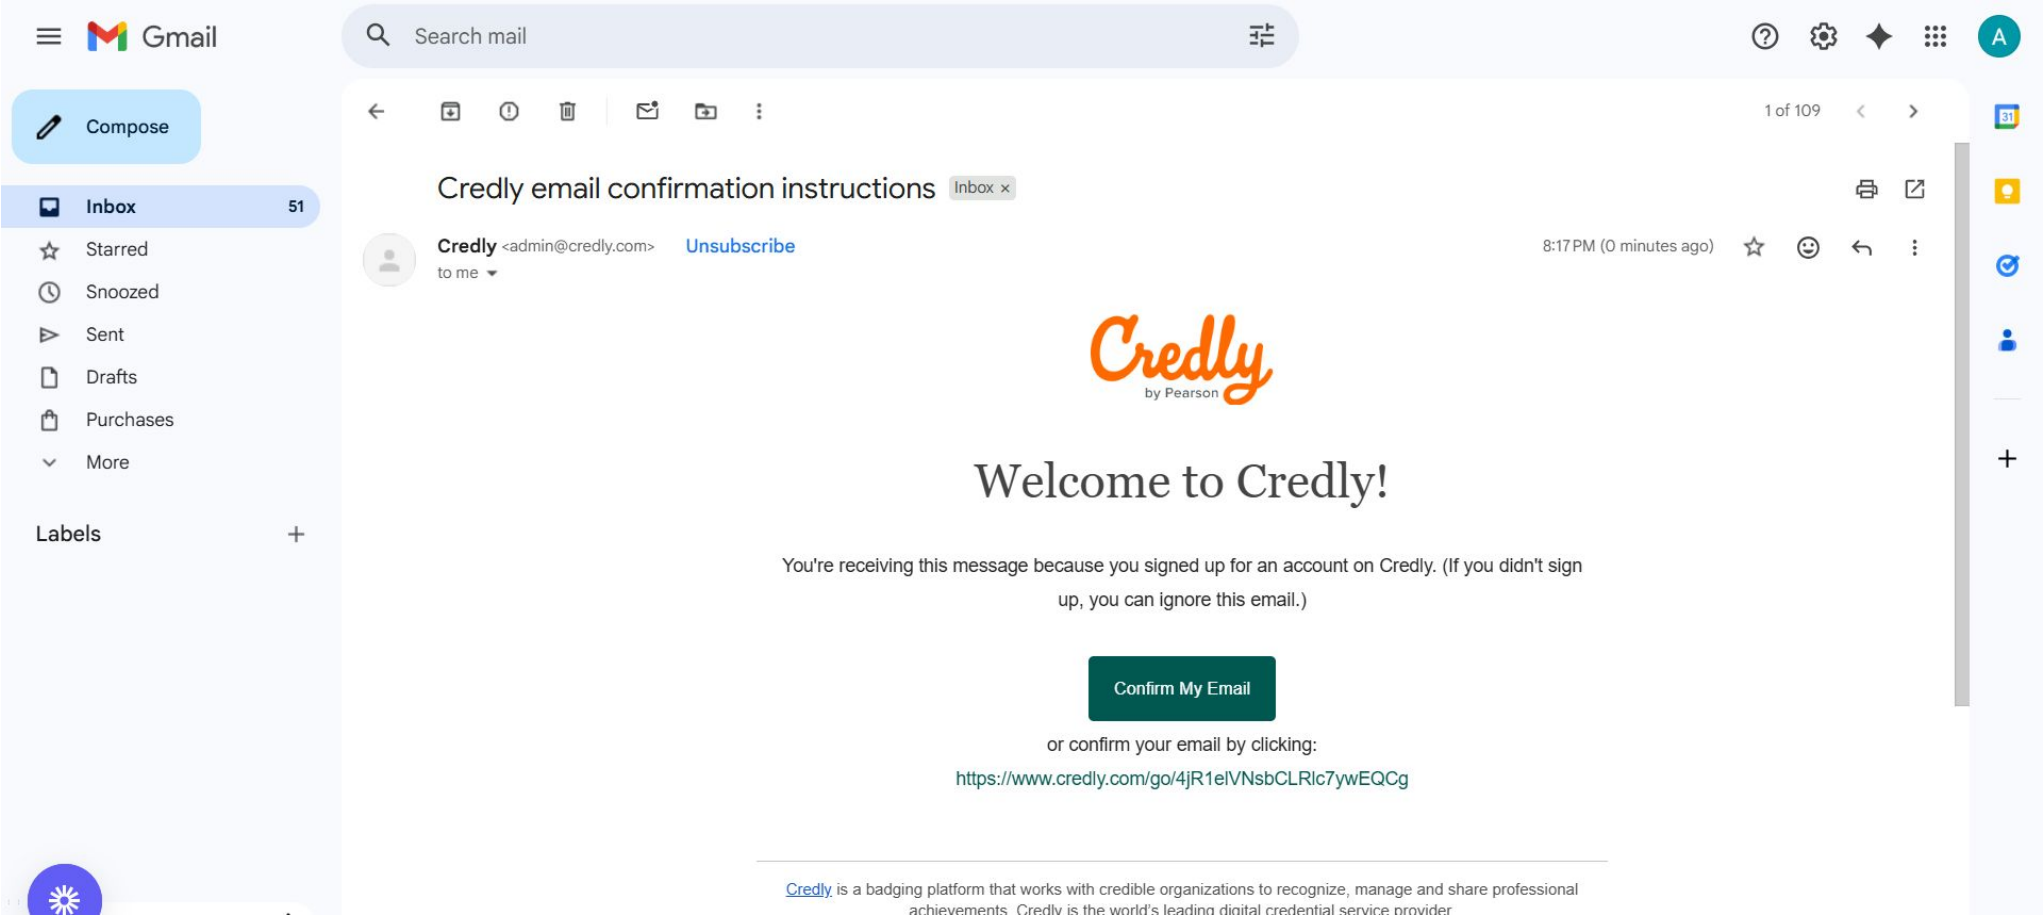
Credly will send a **verification email** to your Gmail inbox.



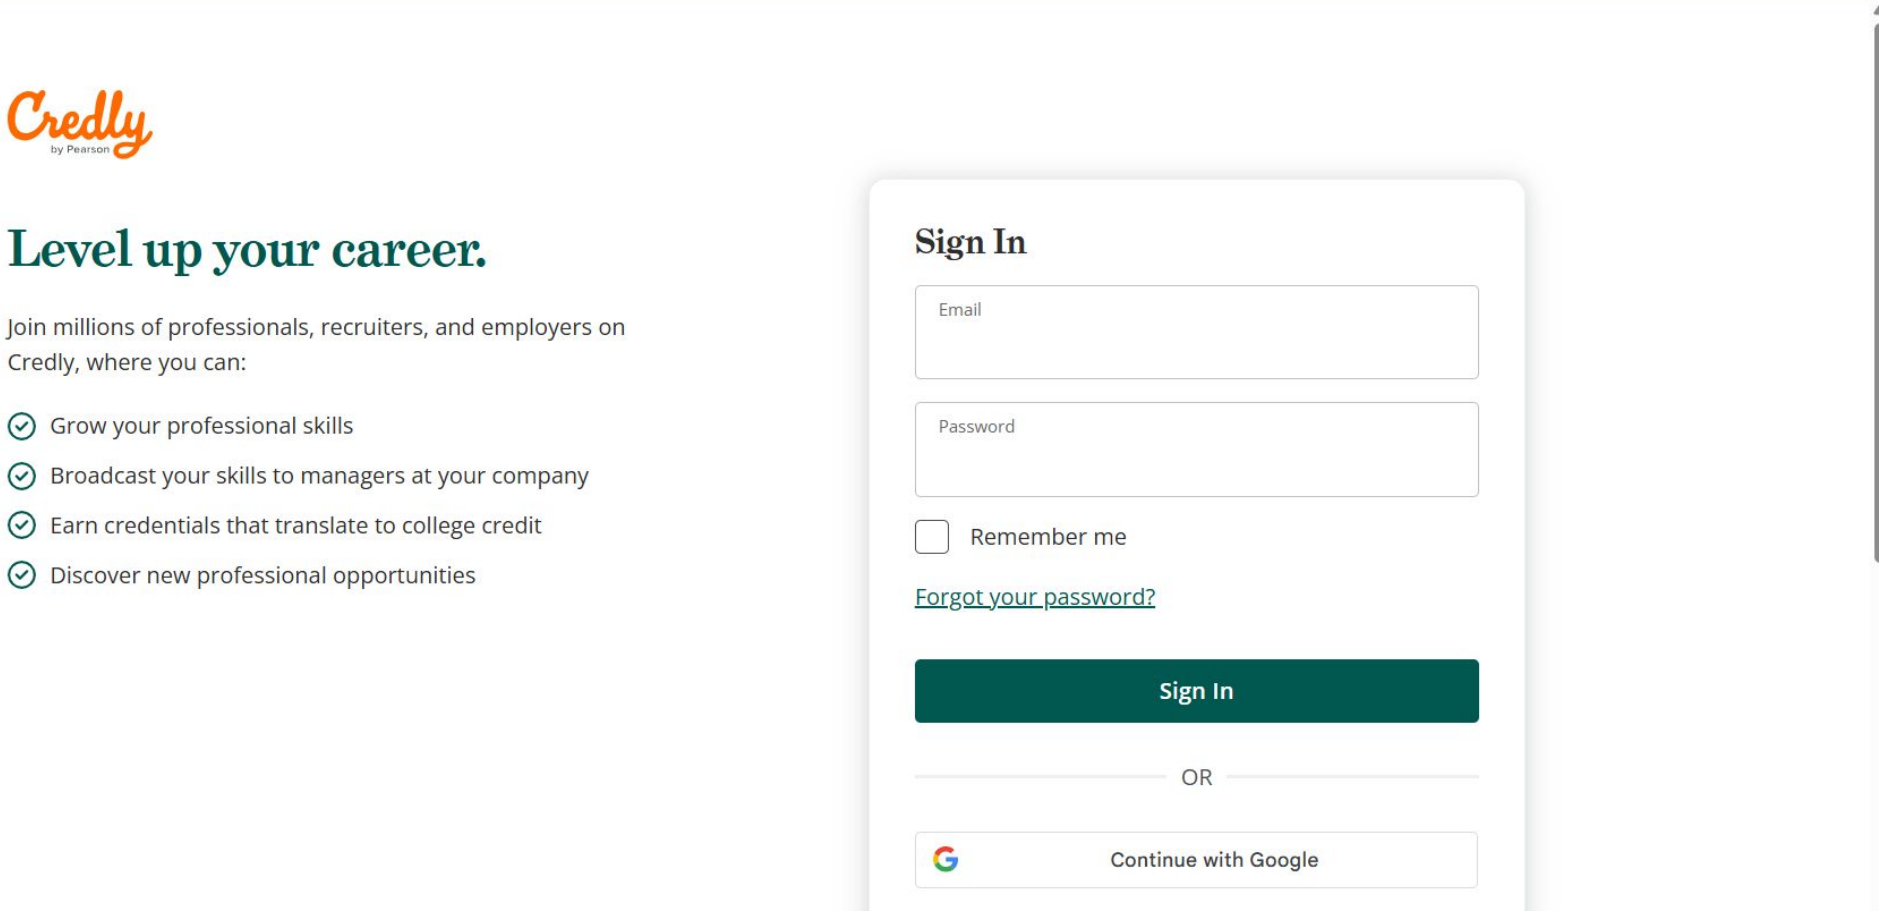
Open your Gmail Find the email from Credly



Click Confirm My Email inside the message

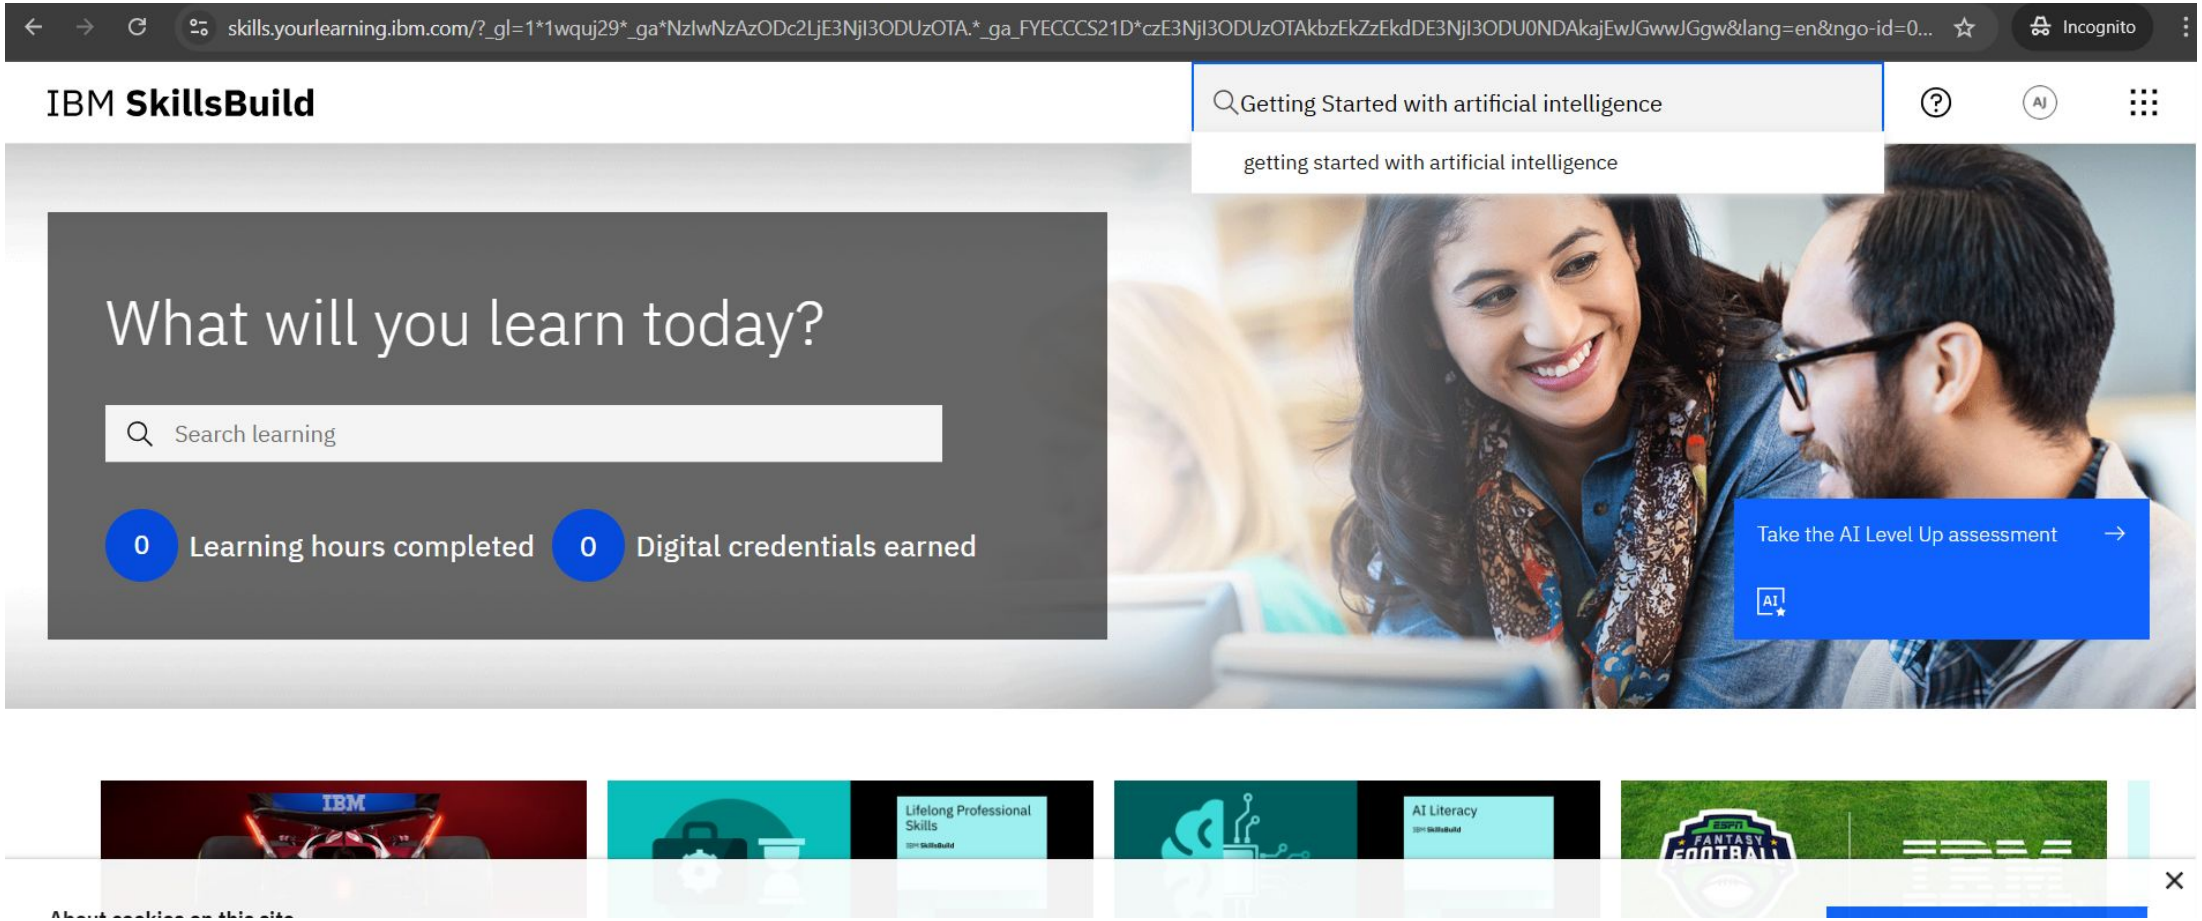


After verifying, you will land the screen below.
Now your credly setup is done and you can close the tab.

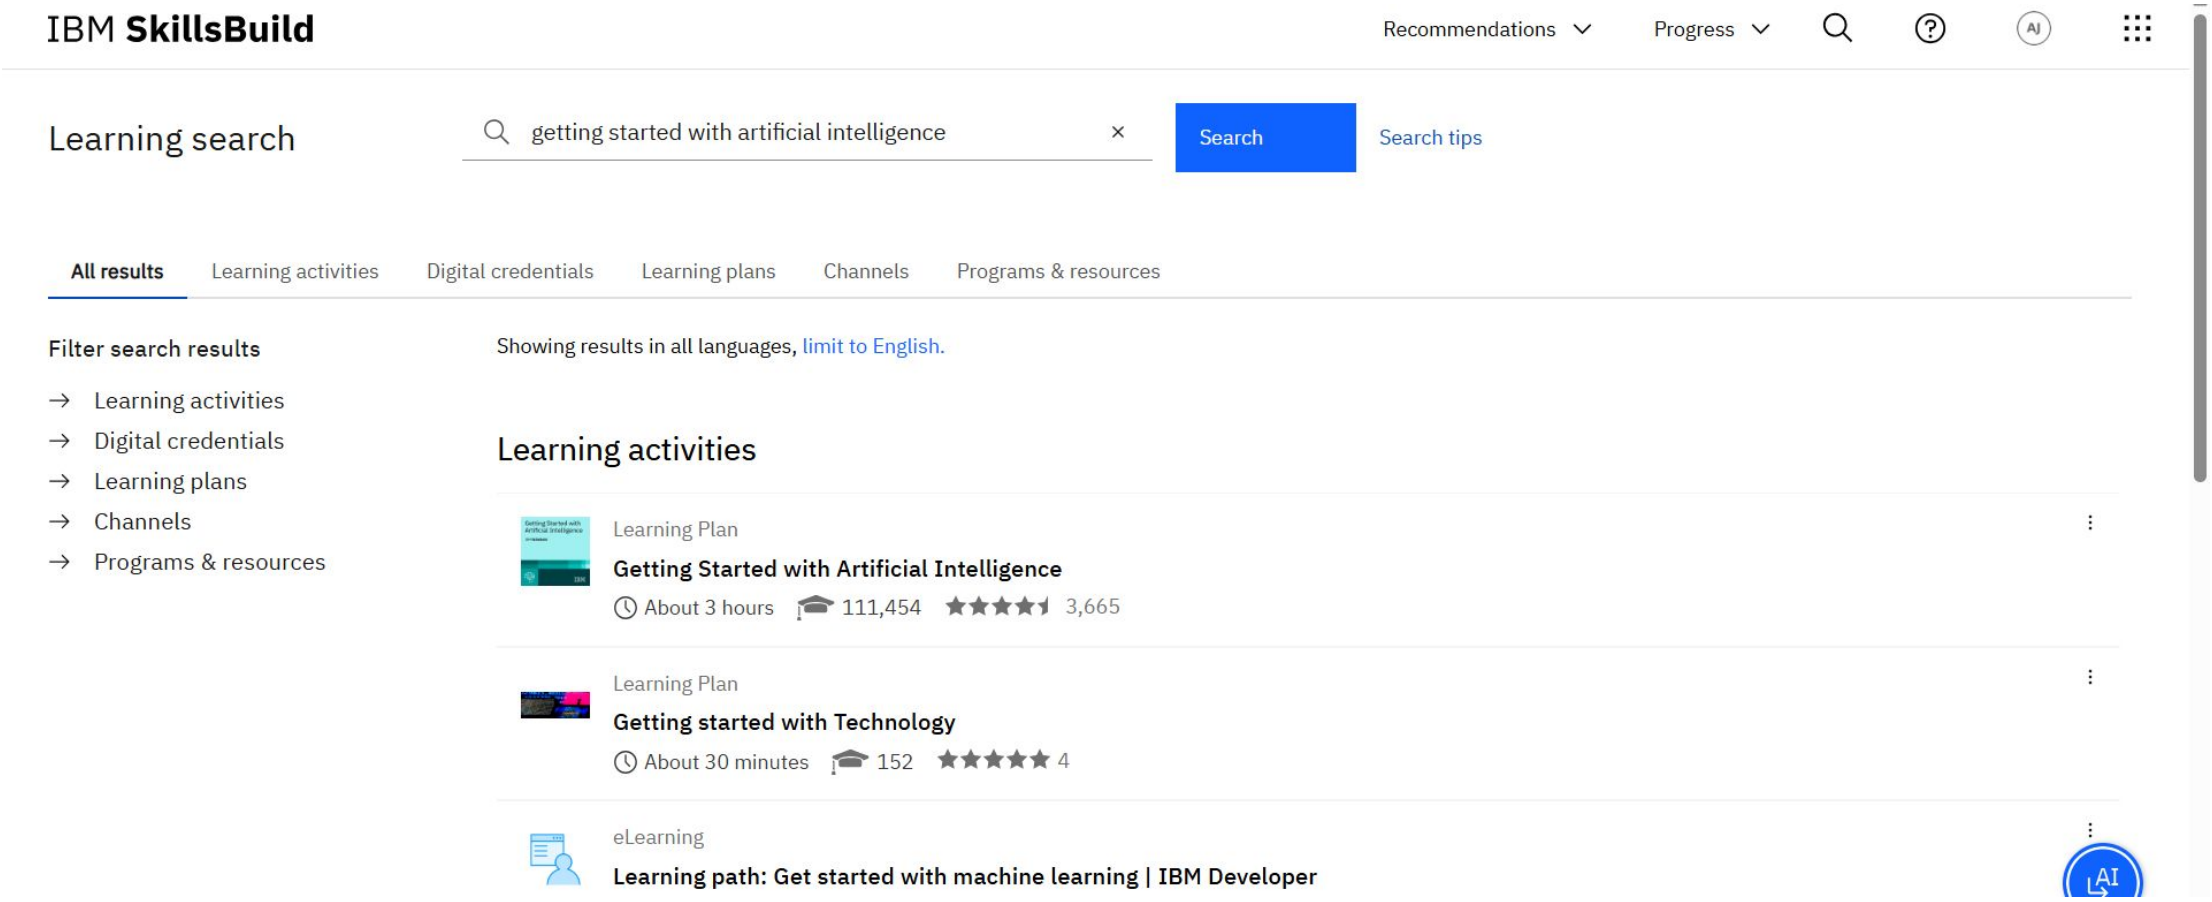


Getting Started With Artificial Intelligence

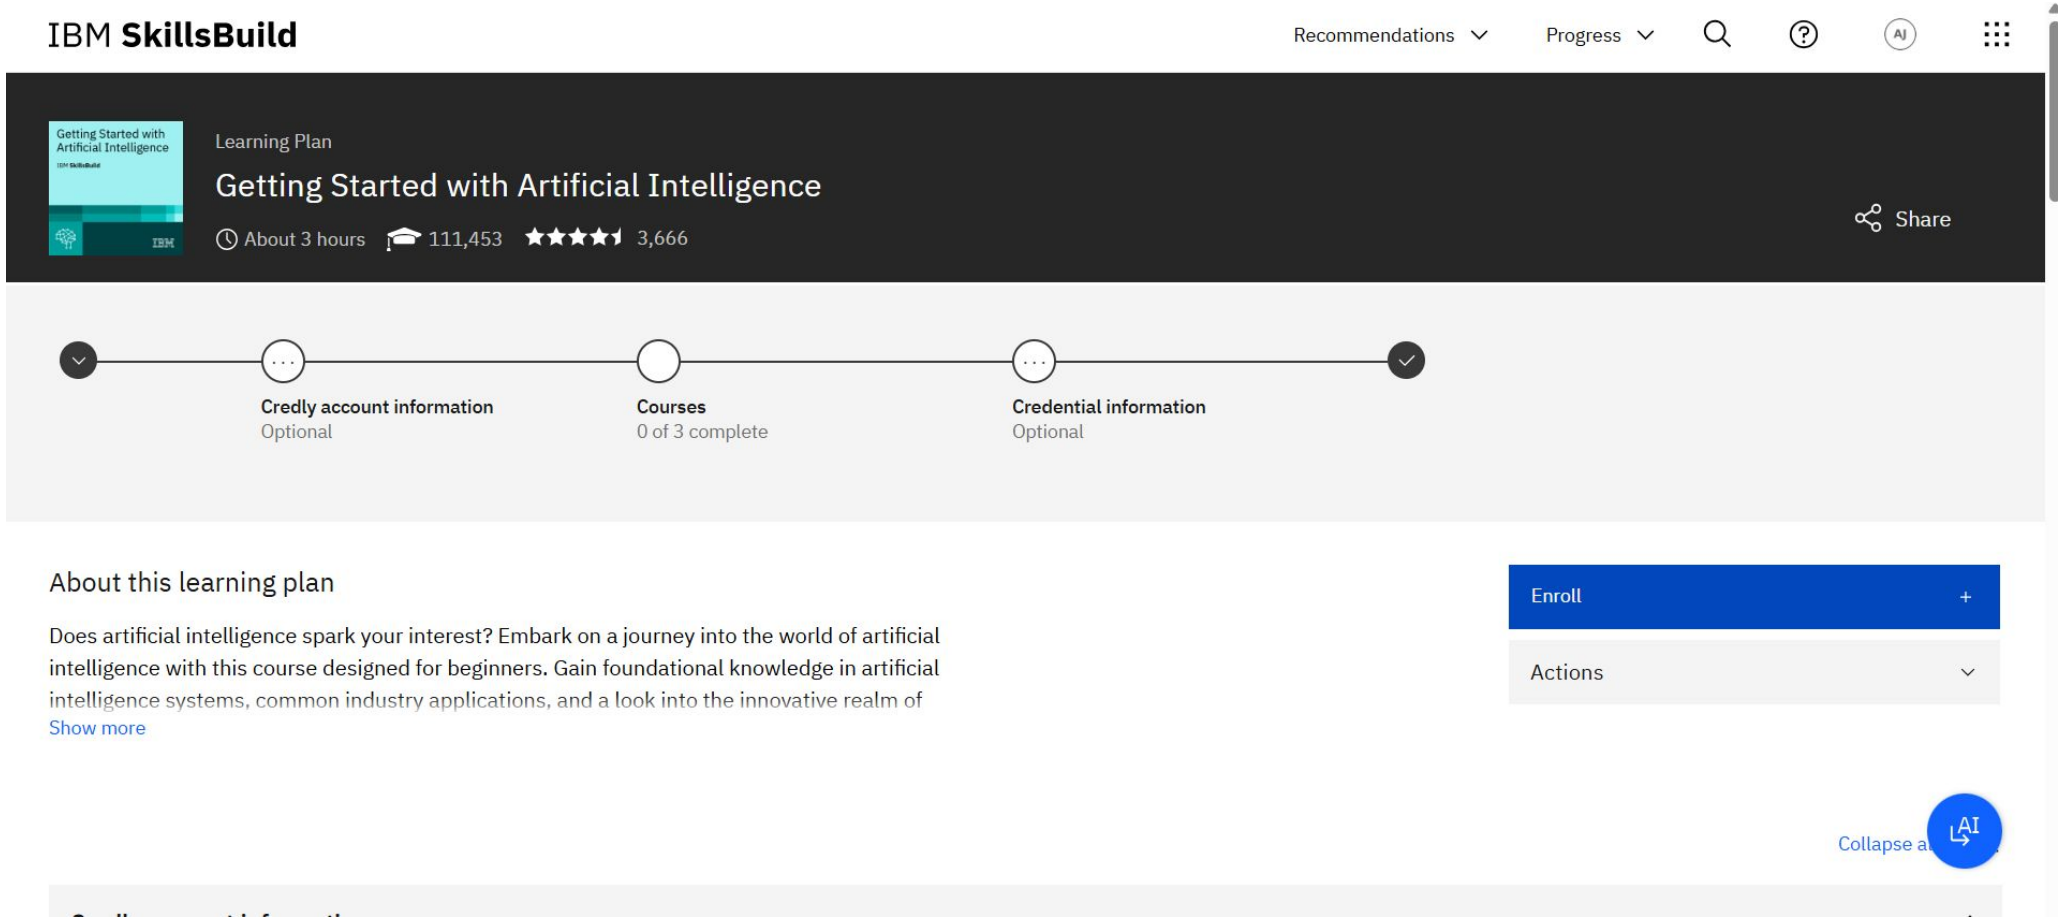
In the IBM dashboard, search for “**Getting started with artificial intelligence**”



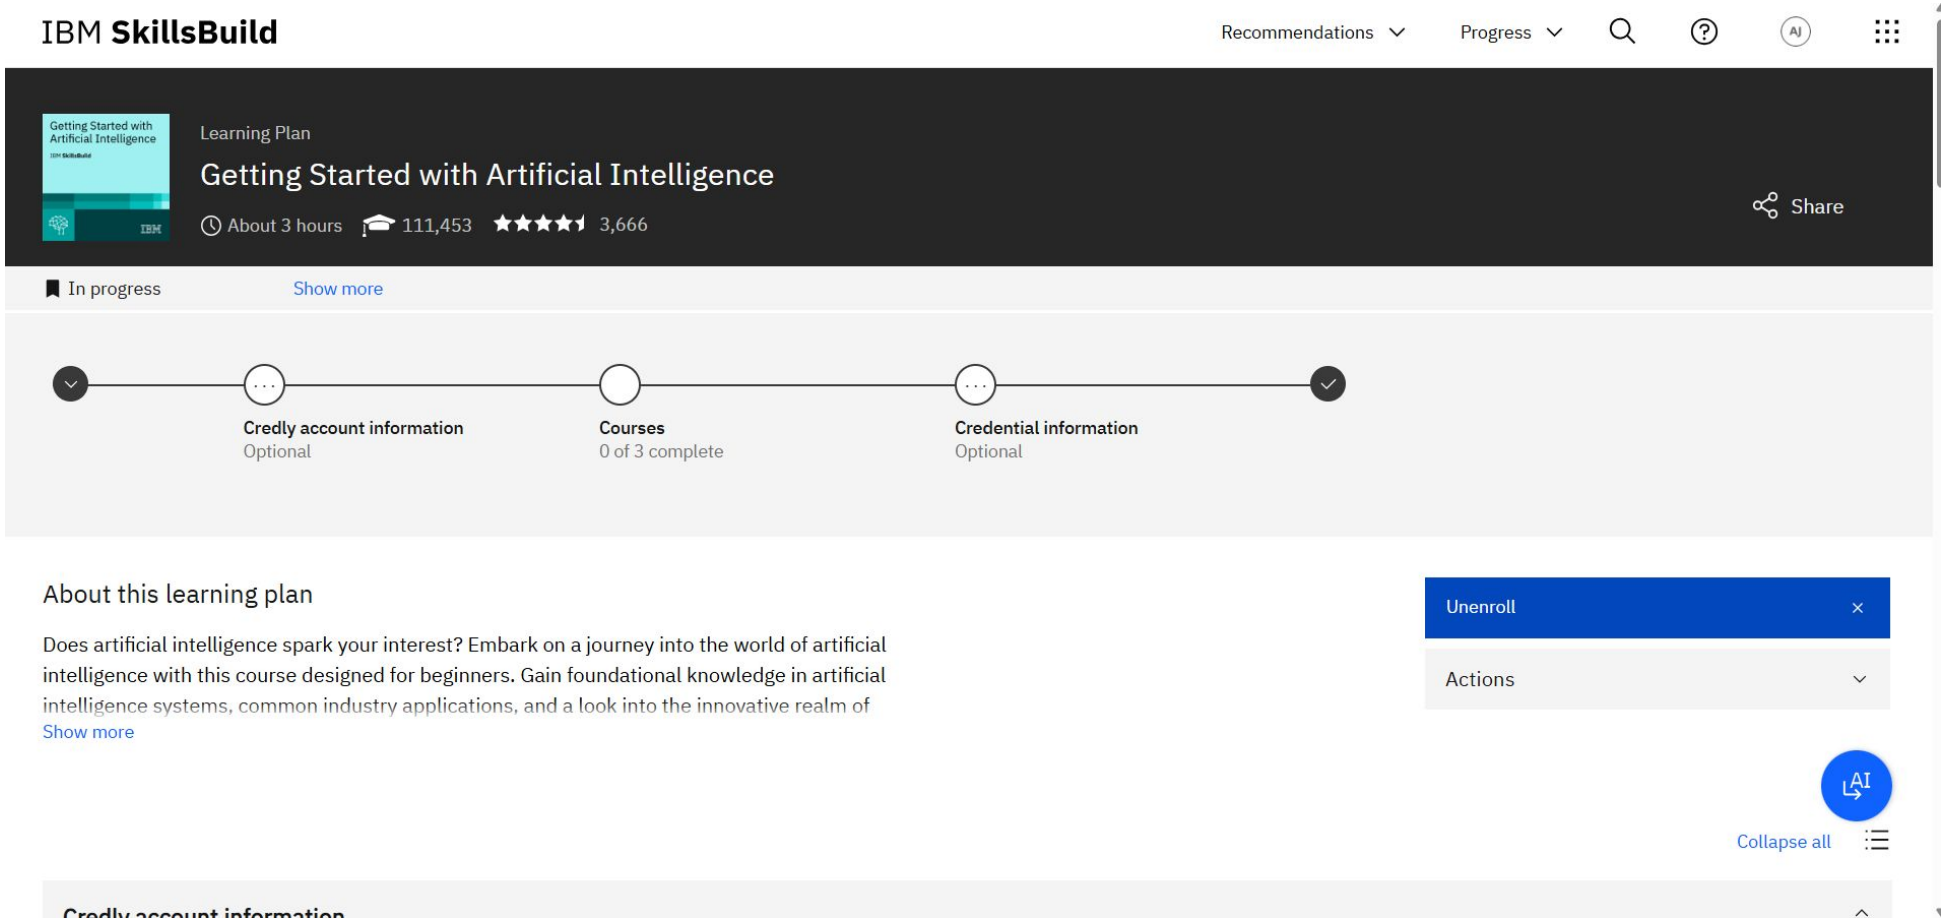
Now select the first result as shown below.



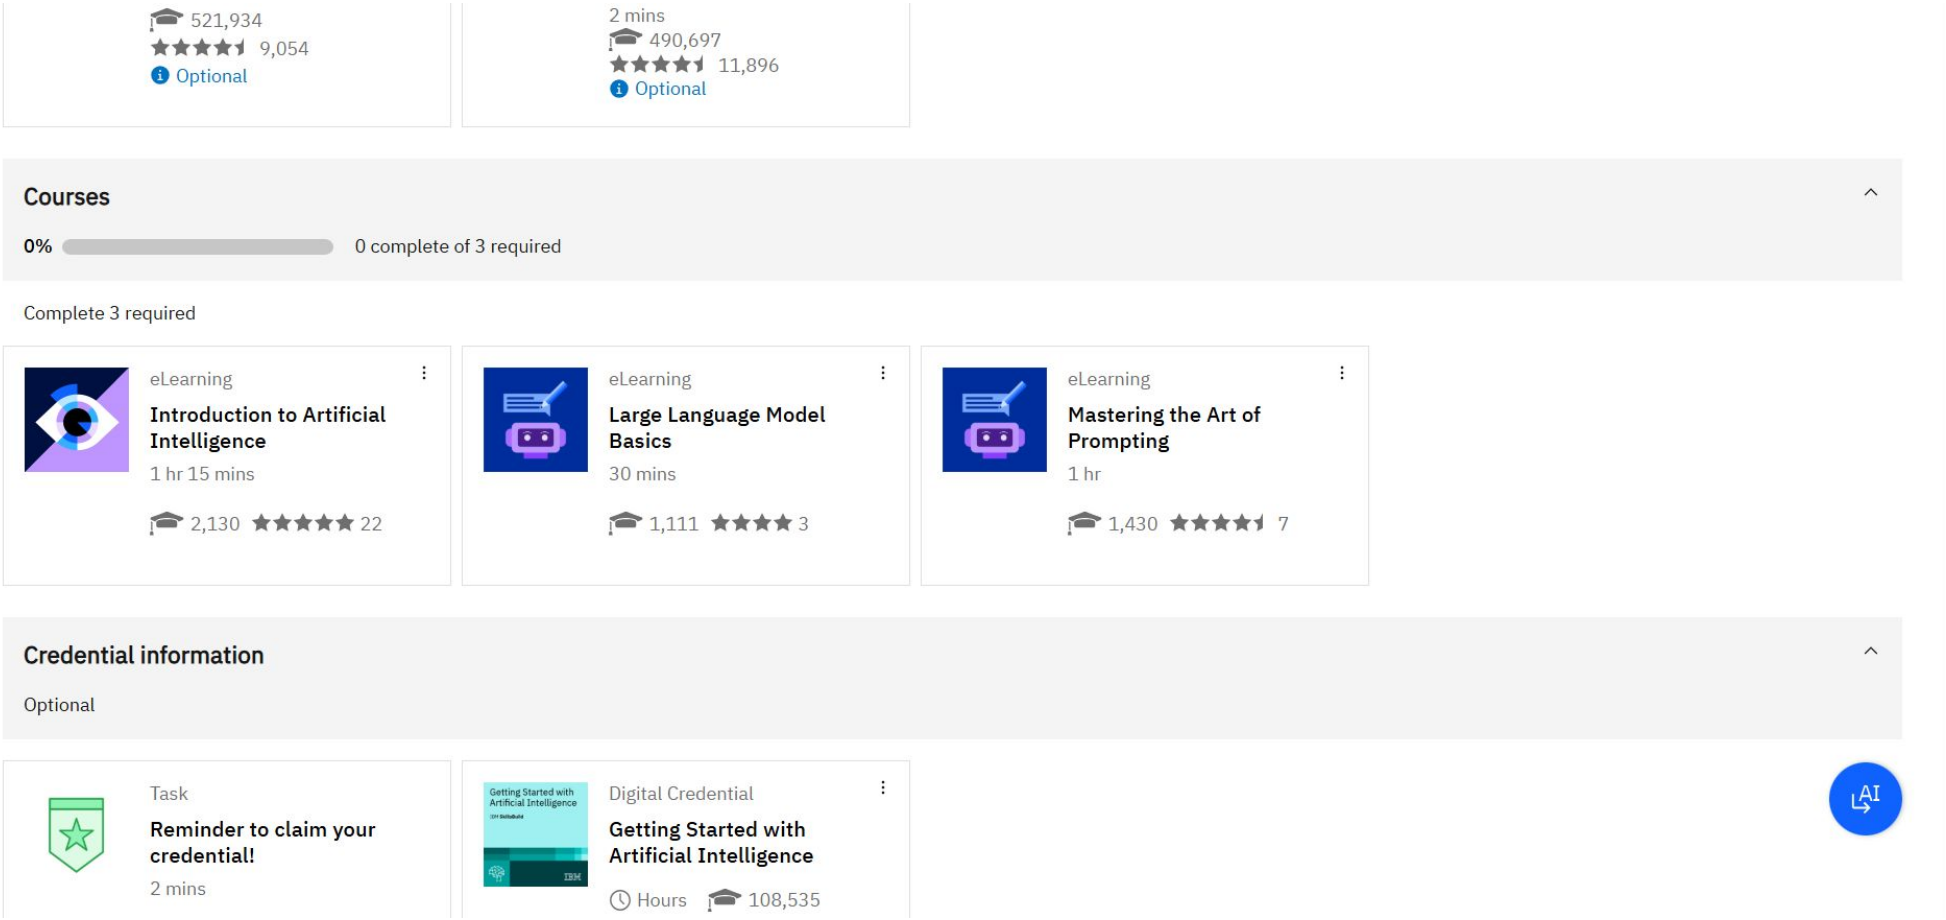
You will come to the course details page. Now click on “**Enroll**” button.



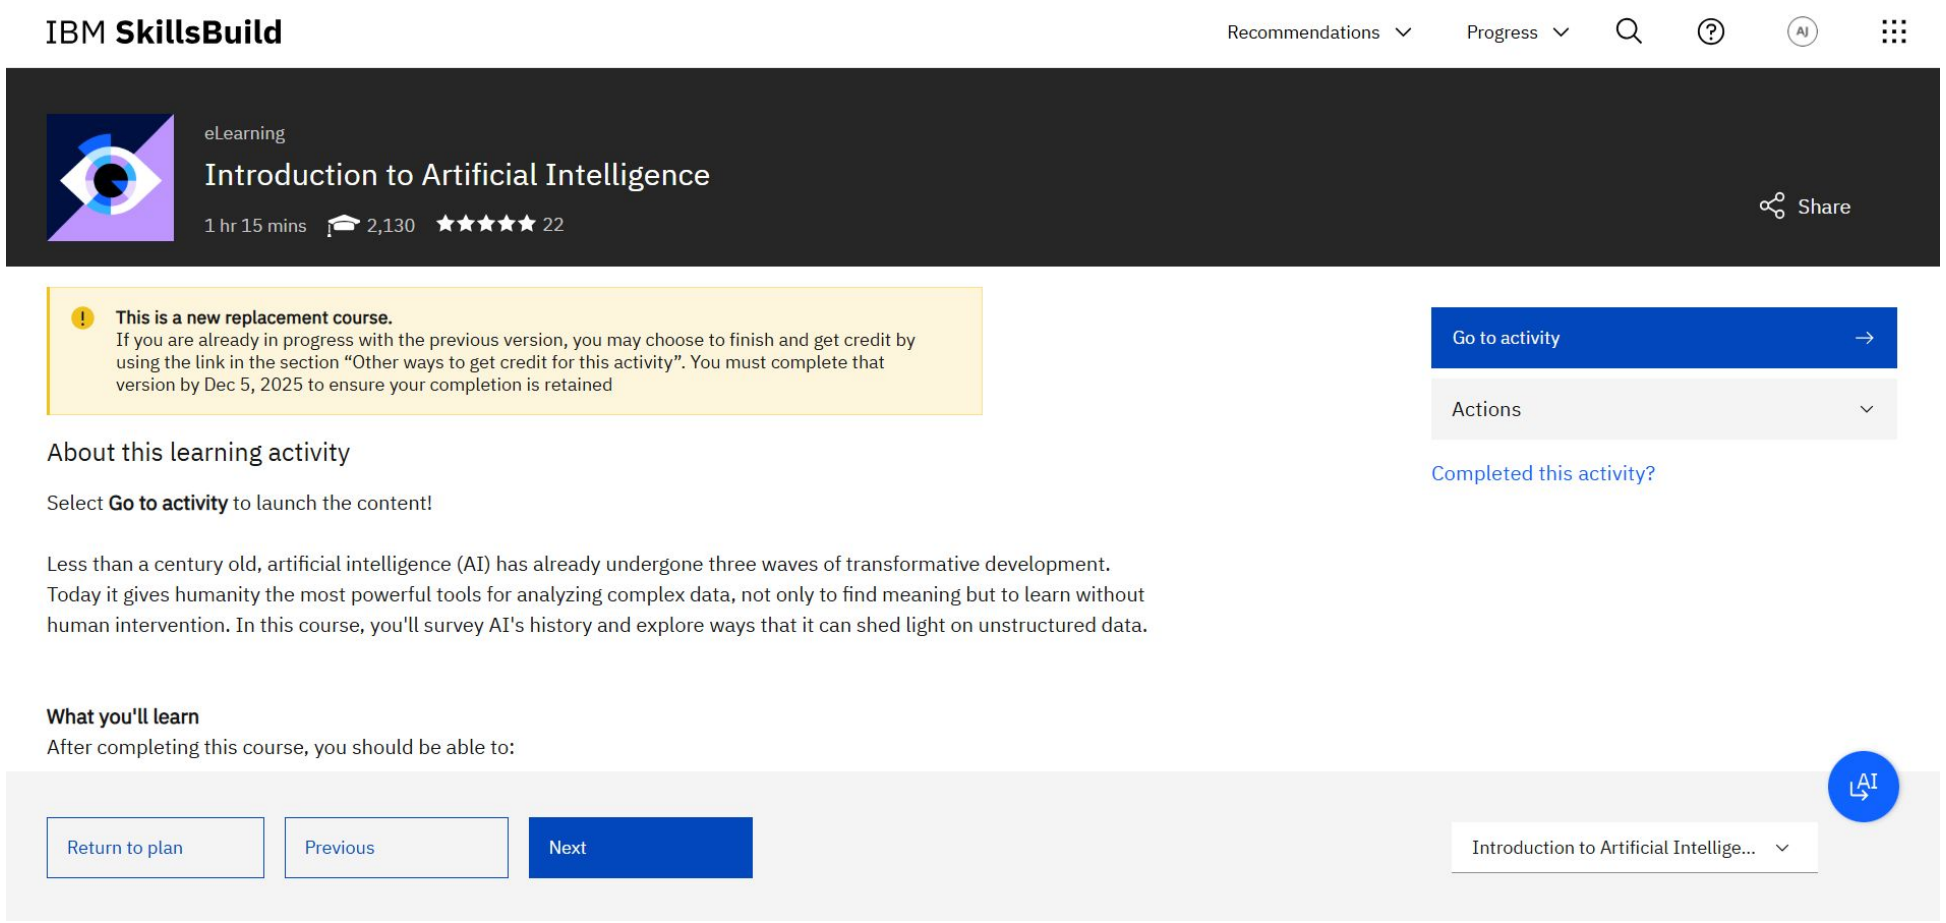
You will see, you have been enrolled to the below course.



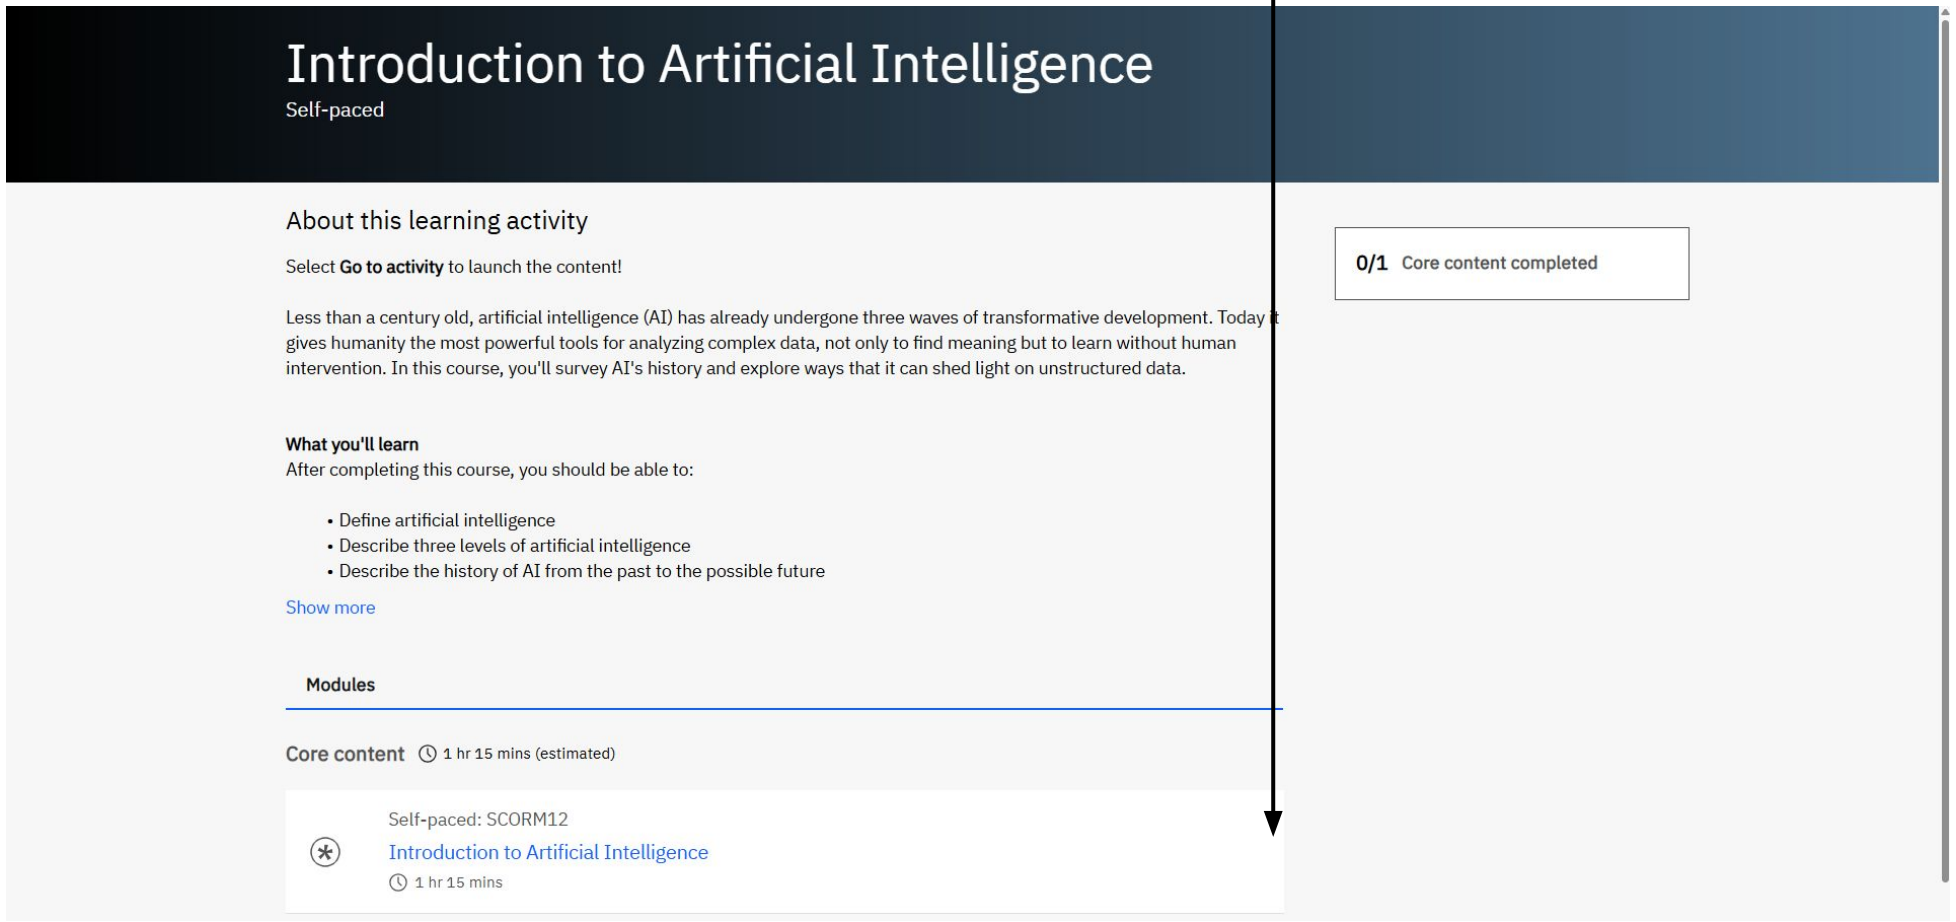
Now scroll down to the courses section, you will find the list of courses to complete.



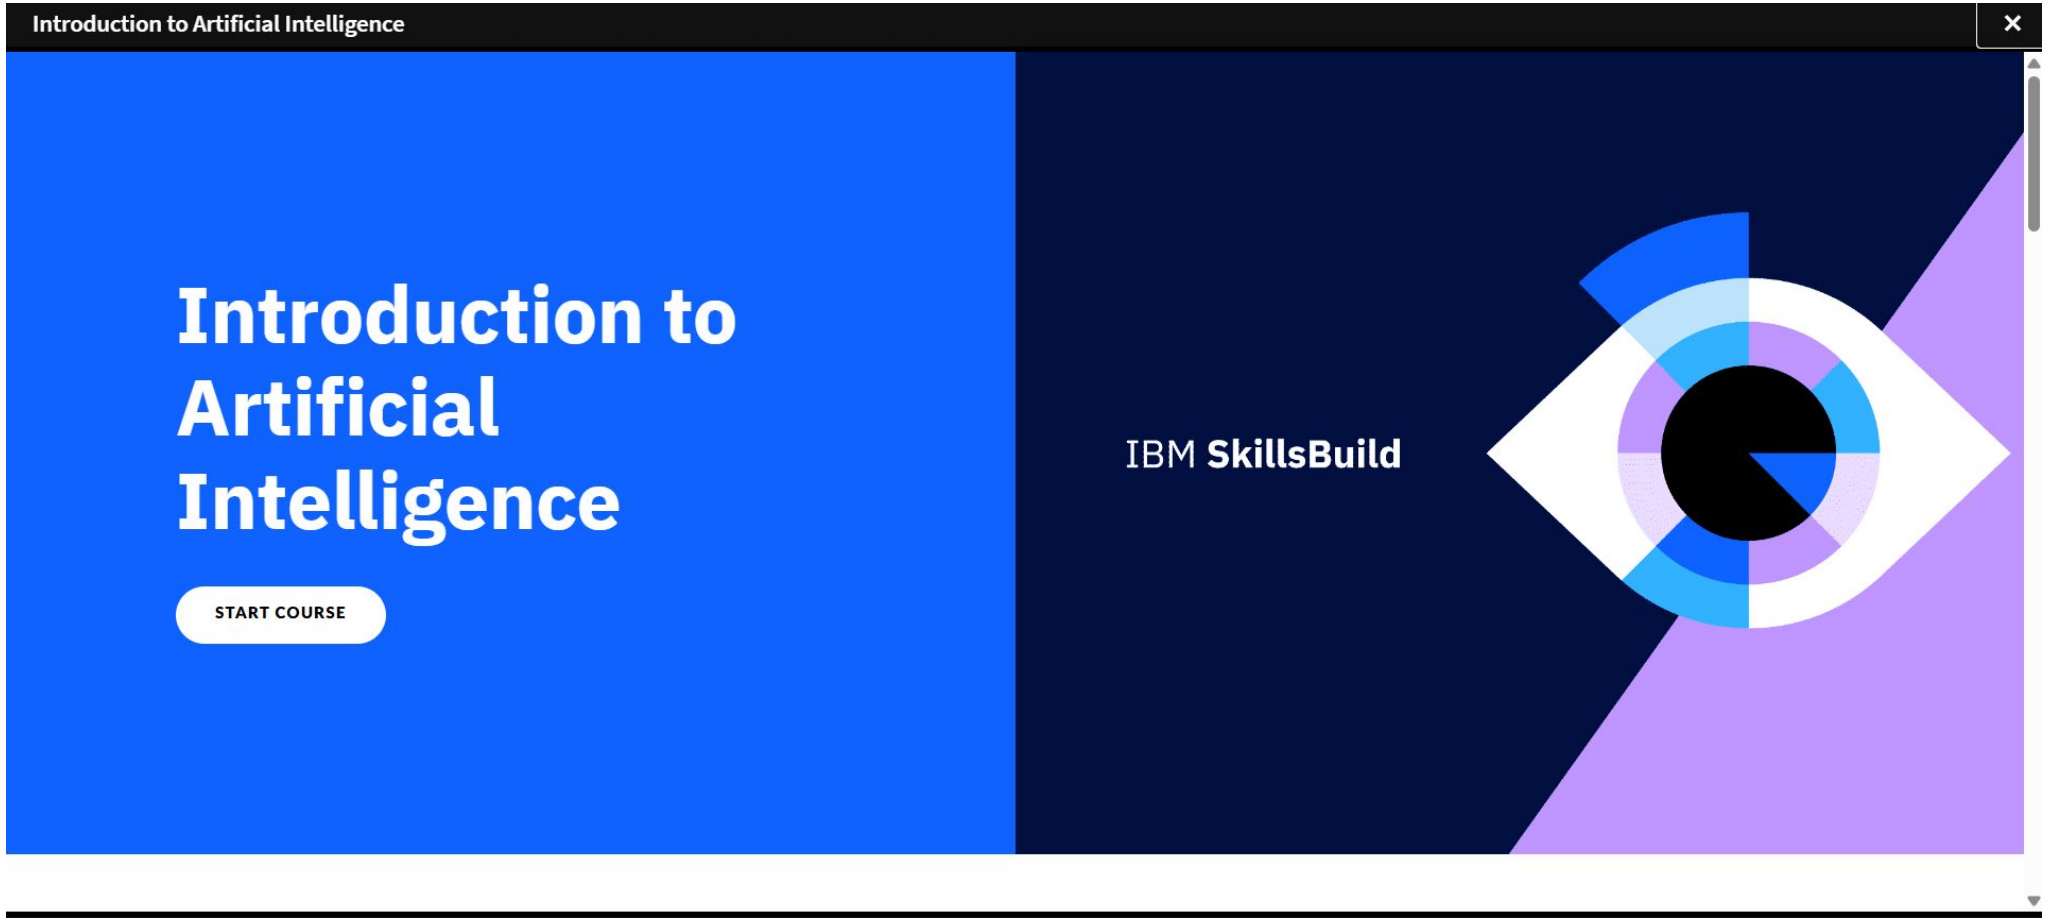
Click on “**Introduction to Artificial Intelligence**” and you will land to the details page. Click on “**Go to activity**”.



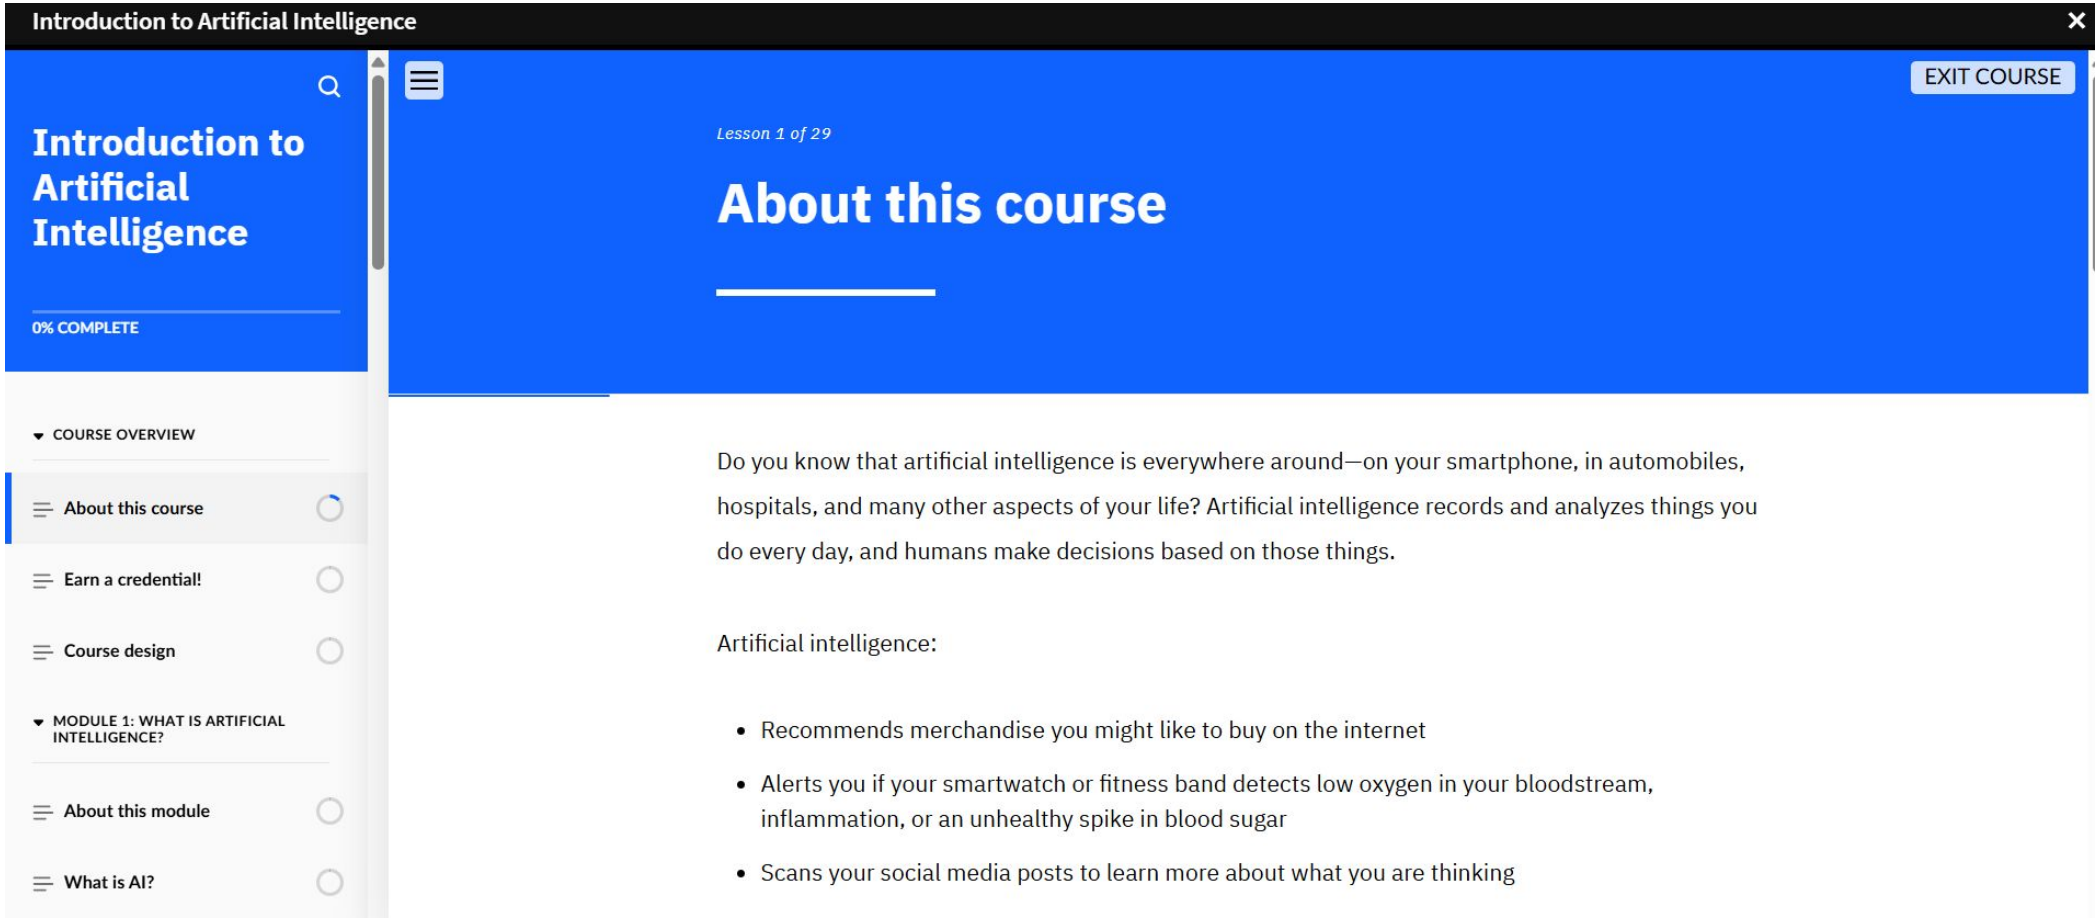
You will land to the activity details page in a new tab. Click on Introduction to Artificial Intelligence as shown below under modules.

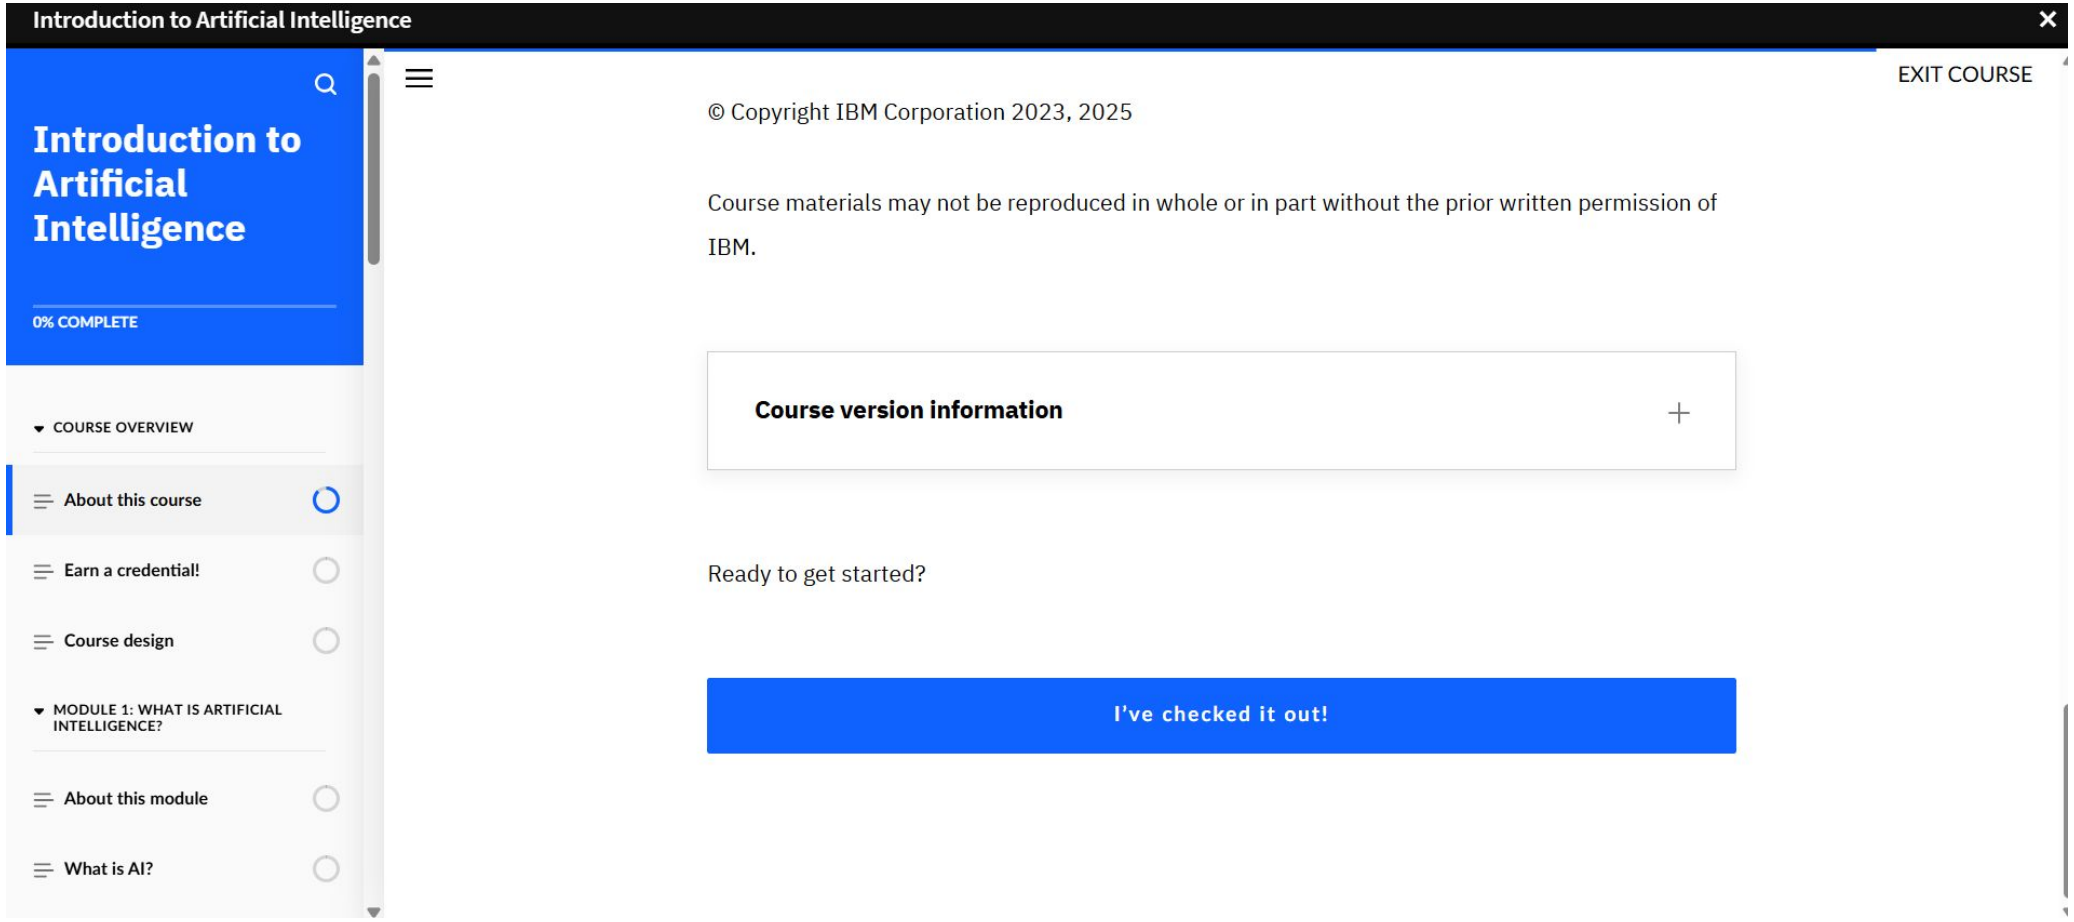


You will land inside the course section. Now click on the “**Start Course**” button.



Start going through the details by scrolling down.





Once you have completed a section, you can click on the button in blue as shown below.
